THE STORY OF HIS CRIME

Greensburg, Pa., February 11.—(Special.)—Exhibiting the same spirit of bravado which has characterized his imprisonment of over half a year, Charles E. Kruger, the murderer of Constable Henry F. Bierer, of Greensburg, was this morning hanged in the county jail. Soon after 10 o'clock the march to the gallows was begun.

"I'm ready," he said to Sheriff John H. Trescher when that official went to his cell and told him that his last hour had come. With Kruger were Rev. W. R. Corter, of Greensburg, and Rev. T. V. Louvesky, of Mt. Pleasant, and with a spiritual advisor on either side of him he walked to the instrument of death with Sheriff Trescher and Deputy Sheriff Daniel Doncaster.

Kruger ascended the scaffold. Half way up the gallows he turned and faced the crowd of less than half a hundred who had been admitted to the jail corridor and said: "I have been a very bad man and have committed many crimes. Drink has been responsible for my downfall, but I think that I have made my peace with God. I am penitent for my crimes, and believe that I will go to heaven. I want to meet you all there."

Turning to Sheriff Trescher and Deputy Doncaster he said: "Don't forget me, boys. Take good care of me. I am thankful for what you have done for me."

Weak in physique because of his long imprisonment and looking no more like a man who would take the life of a fellow than a child, Kruger mounted the platform of the gallows without displaying the least semblance of nervousness. While the noose was being adjusted he chatted with Deputy Doncaster.

"I feel fine," he said. "I'm happy, too." While the deputy was preparing to draw the black cap over his face, Rev. Mr. Corter read a scripture lesson and Rev. Mr. Louvesky made a prayer. Throughout the devotional services Kruger stood with his gaze upward. Slowly and deliberately he repeated the Lord's prayer. Thanking his spiritual advisors for their hours of unceasing prayer with him he turned to the deputy and stated that he was ready for the black cap.

"God bless you all," he said, clearly and distinctly, as the cap was being drawn over his face. Just at 10:10 o'clock Deputy Doncaster stepped from the trap door and gave a signal to the sheriff. The lever releasing the trap was sprung and Kruger dropped into eternity. A corps of physicians counted the heart beats. Gradually they lessened and at 10:13 Kruger was pronounced dead. Seven minutes later the body was taken from the gallows and given to a local funeral director. An examination showed that the fall had not been sufficient to cause a dislocation of the neck and the murderer had slowly strangled to death. There was no evidence of a struggle, and death was painless. The execution could not have been more completely conducted, every detail having been arranged so carefully.

At the local morgue the body was wrapped in a winding sheet according to Kruger's instructions. Then it was given over to the murderer's mother, Mrs. August Betowsky, who with his brother, William Betowsky, of Denora, spent the night in Greensburg. They did not witness the execution, walking the streets nervously until the remains had been taken to the morgue. The body left Greensburg at 2:13 for East Liverpool.

Kruger's last night was spent in

prayer and song. Rev. Mr. Louvesky was with him the entire night. When not engaged in religious devotions he talked with his death watches. He was at all times cheerful and talked lightly of his impending doom. At midnight he was served with a substantial meal of eggs, biscuits, sweet potatoes and meat. He ate heartily.

The crime for which Kruger paid the death penalty stands out in bold relief as one of the most dastardly in the history of Westmoreland county. In March, 1903, Kruger came to this county and secured employment at the No. 1 plant of the Jamison Coal & Coke company, three miles northeast of town. In February he had been released from the Western penitentiary after serving a term for petty larceny. With him came Peter Mattern, a notorious character in the county for many years, and his brother, Fred Kruger.

On July 5 Louis Olios, a miner, preferred a charge against the trio of attempting to dynamite his home while his family was abed. Mattern and Fred Kruger were brought to Greensburg and remanded to jail for trial at court. Charles Kruger was away from home at the time of the arrests.

On Thursday, July 9, Constable Henry Foster Bierer, of Greensburg, went to Jamison No. 1 with a warrant for Kruger's arrest. The warrant was read and Kruger consented to come to Greensburg. The constable was unarmed, although warned before leaving Greensburg that he was about to arrest a dangerous man. Kruger went to an adjoining room for his coat and procuring a revolver shot three times at the constable. Kruger was seen to leave the house immediately after the shots were fired and made off across country.

Bierer was brought to the Westmoreland hospital. One bullet had penetrated his brain and he died without regaining consciousness.

A posse, headed by Sheriff John H. Trescher, hunted all day within a wide radius of the scene of the murder, and it was not until nightfall that the murderer was found hiding in a tree, three-fourths of a mile from Jamison No. 1.

Kruger was tried at the November term of the quarter sessions court. The proceedings were carefully and cautiously conducted, and two full days were required in the taking of testimony. The jury arrived at a first degree verdict after deliberating less than an hour. Throughout the trial Kruger was in a surly mood and when sentence of death was pronounced he turned to the trial judge and said: "I'll meet you in hell."

Kruger attracted a national notoriety because of his confessions to wholesale crimes. Soon after the death sentence had been pronounced he told his jailers that he was guilty of the murder of Alexander McNaught along the Pennsylvania railroad, east of Greensburg, five years ago. These confessions were made the subject of exhaustive investigations, but their authenticity could not be established.

Governor Pennypacker set the execution for Thursday, January 14, but granted a respite of 30 days in order that his sanity might be inquired into. Dr. George C. McLeod, of Philadelphia, of the state board of charities, was sent to Greensburg. After two interviews with the prisoner he declared him perfectly sane.

Kruger was 23 years old. He was of German extraction, having been born in Westphalia. At an early age he came to this country with his family. For many years he lived at Homestead, Pa. The family now reside at East Liverpool. The proper name is Petowsky.

Kruger has served two terms of imprisonment in penal institutions. He was confined in the Western penitentiary upon a conviction for larceny, and in the Canton workhouse, being discharged from the latter institution in February, 1903, and sent to the Ohio state asylum, Massillon, having been declared insane. From this institution he was discharged as fully cured after being detained only two months. It is alleged that he feigned insanity.

Mrs. August Betowsky, the murderer's mother, is in Greensburg. Mrs. Betowsky created a sensation about the jail last night by demanding the money which Kruger had raised for his burial, but the wishes of the condemned man will be followed strictly. He had asked that the burial be as simple as possible.

MAYOR TO BEGIN VIGOROUS MOVE

Proposes to Stop Saloonists From Selling to Habitual Drinkers.

EXAMPLES TO BE MADE

Believing the recklessness of saloon keepers in their disregard for the law covering the sale of intoxicants to habitual drunkards to be the prime cause for a large number of the cases which have appeared before him at intervals of not more than two weeks since he took the oath of office, Mayor Weaver has decided to institute a war against the infraction of the law. As a result every habitual who appears before him in the future will be compelled to evade some very pointed questions if it is not his wish to give away the saloonist from whom the intoxicants were purchased.

The decision of the mayor was not made without forethought. He has been nursing ideas by which he might get rid of some of the chronic appearances of the old timers, and when Mrs. Dick Walker appeared before him yesterday for the fortieth time he concluded to start the game of questioning. He found that it worked to perfection in her case and sees no reason for its failure with others. Mrs. Walker was not at all backward in telling a tale which incriminated Louis Groubert, the saloonist of Second street. She said that she bought a half pint and a small drink from Groubert. The latter when arraigned on the charge of selling to a habitual stated that he had not sold Mrs. Walker any drinks and could prove that she had three half pints when she entered his saloon. Willing to give the accused man an opportunity to vindicate himself, the mayor granted him a prolongation of the trial.

It has been found that there are numerous habituals in the city who can be pumped with remarkable ease and it is the hope of the mayor that after the saloonists once find that they cannot put trust in the hard drinker they will desist from selling them more whisky. The majority of the deplorable cases that come to the sight of the officials emanate from the ranks of the habituals, and the mayor will do all within his power to put a stop to the selling of drink to them.

SALEM LEASE CASE

Leads to an Application for Permission to File a Petition in Error.

Lisbon, February 11.—(Special.)—Arguments were heard by Judge Hole yesterday afternoon on an application for permission to file a petition in error in an ejectment case in which action was brought in a justice's court by Paul Schaeffer against George Renner, Louis Werrick and George Schriver and wife to secure the vacation of Salem property. The matter was taken under advisement by the court.

Proceedings against the defendants, who are plaintiffs in error in common pleas court, were instituted in the court of Justice Astory, in Salem, the plaintiff, Mr. Schaeffer, seeking to compel the defendants to vacate the Sturgeon block which he purchased some time last month. In the justice's court a jury found for the plaintiff, who maintained that Renner had forfeited his rights under the lease by subletting. It is held that the justice's court erred in refusing to charge the jury on the question of forfeiture of lease, although requested in writing to do so.

HIS BIRTHDAY BANQUET

An Occasion Heartily Enjoyed By His Guests, the Lawyers And Newspaper Men, Who Boomed Him for Every Office from Justice to Governor.

Entertaining and highly enjoyable in every feature the banquet given last evening by Squire J. N. Rose at the cozy parlors of Dave Devine, Second street, to the lawyers and newspaper men of the city, was a brilliant success. It was given by the venerable justice in honor of his sixty-second birthday, and at the conclusion of the most pleasing and perfectly appointed affair each of the honored guests joined in wishing their host numberless happy returns of the memorable occasion.

Though the squire is now in the evening of his eventful and worthy career, there was no one more youthful seated at the banquet table. And there was no one present who more enjoyed the occasion than he. As evidence of the mutual friendship, esteem and

JUSTICE J. N. ROSE.

high regard held by the guests and host alike, eloquent bursts of oratory were brought into play, throwing a beam of sunshine on the lives of all and picturing each as he is really seen and known by every one present. The "Old Squar" was paid just tribute by every speaker and it was said of him "the appellation of 'Squar' is truly significant of his character, he being a square man, the same on all sides." In their words of praise and commendation for the squire the tone of the silver-tongued sons of Blackstone and the graduates of the Franklin and Greeley schools was similar, all agreeing that the usefulness of the host had not passed and that no office in the power of the people of East Liverpool to bestow is beyond his reach.

The honesty and integrity of the squire was portrayed on every hand. His life in East Liverpool, especially during the 15 years he has served the people as a justice of the peace, was referred to as most commendable and one of which any man should be proud. There are none better able to pass upon the justice and uprightness of a squire than members of the bar and the press and as they were a unit in praising his untarnished life, he can well be content with his record.

So high is the regard and opinion of the two professions, represented at the banquet, for the squire, that visions of a much higher attainment in life for him were expressed freely. One speaker was vociferously applauded when he referred to the justice as a fitting personage to hold the position of probate judge and when others pointed him out as the man who should be at the helm of this thriving and ever growing municipality—Mayor Rose, if you please—round about round of applause was heard. He was also suggested for governor, and the suggestion was warmly approved.

Promptly at the appointed time the guests arrived at the banquet parlors and for two hours they hugely enjoyed themselves around the festal board, which was fairly groaning under the weight of the finest of the land, as the following menu card indicates:

Consomme in cups
Oysters Cherry Stones on Half Shell
Celery Dill pickles Olives
Lobsters a la Newburg in cases
Filet of Beef with Mushrooms

HERBERT SMITH'S DAMAGE SUIT

Action Growing Out of the Street Railway Wreck on Pleasant Heights.

THE PLAINTIFF'S SIDE

Lisbon, February 11.—(Special.)—The damage case of Herbert Smith against the United Power company came on for trial by the jury in court here yesterday afternoon. In his petition the plaintiff says he was injured in the street car accident which occurred on the evening of March 26 last, which, he says, was due to the carelessness and incompetence of the company's employees.

On the evening of the accident, he alleges, he boarded a car in the Pleasant Heights addition, which is situated at the summit of a steep grade. There is a short stretch of level track at the end of the line on the summit of the grade, where the cars are usually allowed to stand while the trolley is being reversed for the return trip.

The plaintiff says that on this occasion the company had undertaken to run some of its cars without a conductor, leaving only a motorman in charge. George Toland, the motorman, stopped the car on the incline before the level summit was reached, changed the trolley and released the brake at the rear end of the car. Before he could reach the brake at the front end, however, the car had attained such speed on the down grade that the appliances for slackening its speed were powerless, and at a curve the car left the rails and overturned. Nearly all the passengers were more or less injured, but singularly there were no fatalities. The plaintiff said on the witness stand that when the motorman went through the car to the front end, he believed it was running at the rate of 50 miles an hour. When the car left the rails it turned upside down and Smith was crushed down upon the ceiling by some heavy debris, which was removed a few minutes after. His face and different parts of the body were bruised and his right arm, he says, was severely wrenched.

The plaintiff said at the time of the accident he was making \$1 to \$5 a day as a dishwasher and that the street car company, through its agent, agreed to pay him \$1 a day for all the time he should lose on account of his injuries. In July following, however, the company after having paid Smith \$340 refused to pay him any more on the ground that he had recovered and was able to work.

Smith said on the witness stand that physicians had told him his arm would never be entirely well and that when in August last he twice tried to work at his job in the pottery, he found that his arm was too weak and nervous to permit him to perform his accustomed labor. He is now working in a pottery, but says he is still unable to work at his own job. Smith is 33 years old.

The defendant company in its answer says that immediately after the accident, as a matter of right, it had its representatives arrange to adjust all claims for injuries and that Smith's case was included among these.

It is alleged that in consideration of the agreement made, Smith released the company from all liability and that he was at no time confined to the house after the accident. An examination made by three physicians, one of whom had attended Smith, revealed the fact, the company alleges, that he was able to work, although, it is alleged, he had been laying off a couple of days a week since this suit was commenced. The company says it supplied the plaintiff with medical attention and that the physician who attended him looks to the company for his pay.

In giving his testimony, the plaintiff was required to remove his shirt to expose his injured shoulder to the jury.

CUSTODIANSHIP OF WATER FUNDS

A DECISION THAT IT BELONGS TO THE CITY.

THE PLAINTIFF'S SIDE

According to the decision of the committee of the state auditors appointed for the purpose, and which is said to have been passed upon by the attorneys of the state attorney general's office, the revenues from the water rents of the city are the property of the city council, to be appropriated by that body twice a year for the benefit of the different departments of the city. This matter has been brought forward by the decision rendered from the committee in whose hands was placed the list of questions submitted at the state meeting of auditors.

In this city all the money that has been received from water rents has been left in the water works fund and no objection has been made to this action, but the answer to a question along this direct line at the auditors' meetings presents a different view of the case. The question and answer are as follows:

"Will water rents be appropriated by the council the same as regular tax levies?"

"Yes. Section 43 says appropriations are to be made from the collection of taxes and all other sources of revenue."

From the tone of this answer it would appear that to carry out the intentions of the code the water rents would revert to the general fund of the city, to be appropriated therefrom to the general needs of the city. If this is found to be the case East Liverpool will have a much larger fund to draw from than has been supposed and there will hardly be any necessity for the refundment of the \$7,000 which has been borrowed from the water works fund.

SALEM WIFE GETS DIVORCE

Charged Extreme Cruelty And Said Her Husband Locked Her Out of the House for Three Days.

Lisbon, February 11.—(Special.)—In common pleas court here yesterday afternoon Judge Hole granted Lynn Mauk, of Salem, a divorce from Ward Mauk. The parties were married at Waynesburg, Pa., in August, 1897, and have one son, Robert, aged 5. The wife charged extreme cruelty, habitual drunkenness and wilful absence.

She cited several instances when he treated her cruelly. On the last day of December he locked her out of the house, she being unable to gain an entrance for three days. She at last forced an entrance and taking her belongings left and did not return. He also threatened to kill her, she alleged, and that he had provided but little for the family, she being compelled to support herself. With the divorce the wife was given the custody of the child.

JAPAN'S BIGGEST VICTORY

Port Arthur, February 11.—(Special.)—The Japanese today unsuccessfully attempted to land men in the bays in this vicinity under the protection of the guns of their cruisers.

Paris, February 11.—(Special.)—The foreign office has been advised that the Russian battleship Czarevitch, torpedoed by the Japanese at Port Arthur, was not seriously damaged.

London, February 11.—(Special.)—King Edward, following the example of the United States, has issued a proclamation declaring Great Britain's neutrality during the Russian-Japanese war.

Tokio, February 11.—(Special.)—The seizure of Masampo, Southeastern Korea, is the most important Japanese triumph thus far. The port will be fortified and maintained as the basis of future strategic movements. The seizure was made by the fleet upon the withdrawal of the Japanese minister from St. Petersburg.

The report of the landing of a large Japanese force at Seoul has not been confirmed.

MONEY WILL BE READY WHEN THE BONDS ARE

The Mansfield Bank's Purchasing Agent States They Will Be Promptly Accepted.

That council made no mistake in the opinion expressed that the Mansfield Savings bank would take up the Pennsylvania avenue improvement bonds which were awarded to them Tuesday evening, was substantiated yesterday afternoon by R. Brickerhoff Jr., who represented the Mansfield people in this city. Mr. Brickerhoff passed through the city yesterday afternoon and at the train stated that the bonds would be accepted by his company as soon as they were ready for delivery.

The gentleman had gone east from this city and yesterday telephoned Auditor Davidson from Rochester, asking him what disposition had been made of the bonds. When informed that his company had received the award he asked the auditor to meet him at the train with a copy of the style of bond it was contemplated. This the auditor did, as Mr. Brickerhoff said it was satisfactory to him and that he would see that the money was forthcoming as soon as the bonds were ready.

Mr. Brickerhoff is well known to a large number of the citizens of this city, both in a business and a social manner. He is the husband of Miss Jennie Oliver, who a number of years ago was a school teacher in this city and still has a large number of friends and relatives here. She is the daughter of Captain Oliver, of Steubenville, also well known here, and a sister of John Oliver, who was formerly in charge of the books of the Wallace & Chetwynd pottery.

Salem Man Jailed.

Rose at the cozy parlors of Dave Devine, Second street, to the lawyers and newspaper men of the city, was a brilliant success. It was given by the venerable justice in honor of his sixty-second birthday, and at the conclusion of the most pleasing and perfectly appointed affair each of the honored guests joined in wishing their host numberless happy returns of the memorable occasion.

Though the 'squire is now in the evening of his eventful and worthy career, there was no one more youthful seated at the banquet table. And there was no one present who more enjoyed the occasion than he. As evidence of the mutual friendship, esteem and

JUSTICE J. N. ROSE.

high regard held by the guests and host alike, eloquent bursts of oratory were brought into play, throwing a beam of sunshine on the lives of all and picturing each as he is really seen and known by every one present.

The "Old Squar" was paid just tribute by every speaker and it was said of him "the appellation of 'Squar' is truly significant of his character, he being a square man, the same on all sides." In their words of praise and commendation for the 'squire the tone of the silver tongued sons of Blackstone and the graduates of the Franklin and Greeley schools was similar, all agreeing that the usefulness of the host had not passed and that no office in the power of the people of East Liverpool to bestow is beyond his reach.

The honesty and integrity of the 'squire was portrayed on every hand. His life in East Liverpool, especially during the 15 years he has served the people as a justice of the peace, was referred to as most commendable and one of which any man should be proud. There are none better able to pass upon the justice and uprightness of a 'squire than members of the bar and the press and as they were a unit in praising his untarnished life, he can well be content with his record.

So high is the regard and opinion of the two professions, represented at the banquet, for the 'squire, that visions of a much higher attainment in life for him were expressed freely. One speaker was vociferously applauded when he referred to the justice as a fitting personage to hold the position of probate judge and when others pointed him out as the man who should be at the helm of this thriving and ever growing municipality—Mayor Rose, if you please—round after round of applause was heard. He was also suggested for governor, and the suggestion was warmly approved.

Promptly at the appointed time the guests arrived at the banquet parlors and for two hours they hugely enjoyed themselves around the festal board, which was fairly groaning under the weight of the finest of the land, as the following menu card indicates:

Consomme in cups
Oysters Cherry Stones on Half Shell

HERBERT SMITH'S DAMAGE SUIT

Action Growing Out of the Street Railway Wreck on Pleasant Heights.

THE PLAINTIFF'S SIDE

Lisbon, February 11.—(Special.)—The damage case of Herbert Smith against the United Power company came on for trial by the jury in court here yesterday afternoon. In his petition the plaintiff says he was injured in the street car accident which occurred on the evening of March 26 last, which, he says, was due to the carelessness and incompetence of the company's employees.

On the evening of the accident, he alleges, he boarded a car in the Pleasant Heights addition, which is situated at the summit of a steep grade. There is a short stretch of level track at the end of the line on the summit of the grade, where the cars are usually allowed to stand while the trolley is being reversed for the return trip.

The plaintiff says that on this occasion the company had undertaken to run some of its cars without a conductor, leaving only a motorman in charge. George Toland, the motorman, stopped the car on the incline before the level summit was reached, changed the trolley and released the brake at the rear end of the car. Before he could reach the brake at the front end, however, the car had attained such speed on the down grade that the appliances for slackening its speed were powerless, and at a curve the car left the rails and overturned. Nearly all the passengers were more or less injured, but singularly there were no fatalities. The plaintiff said on the witness stand that when the motorman went through the car to the front end, he believed it was running at the rate of 50 miles an hour. When the car left the rails it turned upside down and Smith was crushed down upon the ceiling by some heavy debris, which was removed a few minutes after. His face and different parts of the body were bruised and his right arm, he says, was severely wrenched.

The plaintiff said at the time of the accident he was making \$4 to \$5 a day as a dishwasher and that the street car company, through its agent, agreed to pay him \$4 a day for all the time he should lose on account of his injuries. In July following, however, the company after having paid Smith \$340 refused to pay him any more on the ground that he had recovered and was able to work.

Smith said on the witness stand that physicians had told him his arm would never be entirely well and that when in August last he twice tried to work at his job in the pottery, he found that his arm was too weak and nervous to permit him to perform his accustomed labor. He is now working in a pottery, but says he is still unable to work at his own job. Smith is 33 years old.

The defendant company in its answer says that immediately after the accident, as a matter of right, it had its representatives arrange to adjust all claims for injuries and that Smith's case was included among these.

It is alleged that in consideration of the agreement made, Smith released the company from all liability and that he was at no time confined to the house after the accident. An examination made by three physicians, one of whom had attended Smith, revealed the fact, the company alleges, that he was able to work, although, it is alleged, he had been laying off a couple of days a week since this suit was commenced. The company says it supplied the plaintiff with medical attention and that the physician who attended him looks to the company for his pay.

In giving his testimony, the plaintiff was required to remove his shirt to expose his injured shoulder to the jury.

CUSTODIANSHIP OF WATER FUNDS

A DECISION THAT IT BELONGS TO THE CITY.

Water Rents Under the Code Are Supposed to Revert to the General Fund.

According to the decision of the committee of the state auditors appointed for the purpose, and which is said to have been passed upon by the attorneys of the state attorney general's office, the revenues from the water rents of the city are the property of the city council, to be appropriated by that body twice a year for the benefit of the different departments of the city. This matter has been brought forward by the decision rendered from the committee in whose hands was placed the list of questions submitted at the state meeting of auditors.

In this city all the money that has been received from water rents has been left in the water works fund and no objection has been made to this action, but the answer to a question along this direct line at the auditors' meetings presents a different view of the case. The question and answer are as follows:

"Will water rents be appropriated by the council the same as regular tax levies?"

"Yes. Section 43 says appropriations are to be made from the collection of taxes and all other sources of revenue."

From the tone of this answer it would appear that to carry out the intentions of the code the water rents would revert to the general fund of the city, to be appropriated therefrom to the general needs of the city. If this is found to be the case East Liverpool will have a much larger fund to draw from than has been supposed and there will hardly be any necessity for the refundment of the \$7,000 which has been borrowed from the water works fund.

SALEM WIFE GETS DIVORCE

Charged Extreme Cruelty And Said Her Husband Locked Her Out of the House for Three Days.

Lisbon, February 11.—(Special.)—In common pleas court here yesterday afternoon Judge Hole granted Lynn Mauk, of Salem, a divorce from Ward Mauk. The parties were married at Waynesburg, Pa., in August, 1897, and have one son, Robert, aged 5. The wife charged extreme cruelty, habitual drunkenness and wilful absence.

She cited several instances when he treated her cruelly. On the last day of December he locked her out of the house, she being unable to gain an entrance for three days. She at last forced an entrance and taking her belongings left and did not return. He also threatened to kill her, she alleged, and that he had provided but little for the family, she being compelled to support herself. With the divorce the wife was given the custody of the child.

SETTLED OUT OF COURT

JAPAN'S BIGGEST VICTORY

Port Arthur, February 11.—(Special.)—The Japanese today unsuccessfully attempted to land men in the bays in this vicinity under the protection of the guns of their cruisers.

Paris, February 11.—(Special.)—The foreign office has been advised that the Russian battleship Czarevitch, torpedoed by the Japanese at Port Arthur, was not seriously damaged.

London, February 11.—(Special.)—King Edward, following the example of the United States, has issued a proclamation declaring Great Britain's neutrality during the Russian-Japanese war.

Tokio, February 11.—(Special.)—The seizure of Masampo, Southeastern Korea, is the most important Japanese triumph thus far. The port will be fortified and maintained as the basis of future strategic movements. The seizure was made by the fleet upon the withdrawal of the Japanese minister from St. Petersburg.

The report of the landing of a large Japanese force at Seoul has not been confirmed.

MONEY WILL BE READY WHEN THE BONDS ARE

The Mansfield Bank's Purchasing Agent States They Will Be Promptly Accepted.

That council made no mistake in the opinion expressed that the Mansfield Savings bank would take up the Pennsylvania avenue improvement bonds which were awarded to them Tuesday evening, was substantiated yesterday afternoon by R. Brickerhoff Jr., who represented the Mansfield people in this city. Mr. Brickerhoff passed through the city yesterday afternoon and at the train stated that the bonds would be accepted by his company as soon as they were ready for delivery.

The gentleman had gone east from this city and yesterday telephoned Auditor Davidson from Rochester, asking him what disposition had been made of the bonds. When informed that his company had received the award he asked the auditor to meet him at the train with a copy of the style of bond it was contemplated. This the auditor did, as Mr. Brickerhoff said it was satisfactory to him and that he would see that the money was forthcoming as soon as the bonds were ready.

Mr. Brickerhoff is well known to a large number of the citizens of this city, both in a business and a social manner. He is the husband of Miss Jennie Over, who a number of years ago was a school teacher in this city and still has a large number of friends and relatives here. She is the daughter of Captain Oliver, of Steubenville, also well known here, and a sister of John Oliver, who was formerly in charge of the books of the Wallace & Chetwynd pottery.

Salem Man Jailed.

Lisbon, February 11.—(Special.)—Chief W. D. Turner, of Salem, brought Walter Glancy to the county jail yesterday afternoon. Glancy was bound over from Mayor Carille's court on a charge of assault and battery committed on James Roomy.

Ill of Blood Poisoning.

Among the Potteries and Allied Industries

INTERESTED IN WAR.

The war between Russia and Japan has outdistanced all else among the operatives and if the news continues exciting the next day will be a few dollars shy. The question of right and might figures a great deal in the discussions, which take place many times a day. It is a bit remarkable that the vast majority of the people favor the Japs and express the wish, perhaps fathered by the wish that Japan will win. One prominent pottery manager, who was in a crowd of 26 local men, well known in pottery and professional circles, states that not one favored Russia.

PAINFUL INJURY.

John Tolbert, the boss packer at McNicol's, is suffering with a very sore hand, the result of an accident that happened him a few days ago. He was helping load some casks into a car when a nail protruding through one of the hoops struck him in the palm of the left hand, entering almost to the bone. The nail was rusty and for this reason the wound is rather dangerous.

NO. 9 WILL VOTE.

Local union No. 9 will have the proposition to change the time for holding the national conventions up for consideration at the meeting to-morrow night. There is very little doubt but that the vote will be unanimously affirmative, as the kilnmen, like the pressers and jiggermen, were petitioners that the proposition be submitted to a vote of the trade.

NO. 32'S SOCIAL.

Local No. 32 perfected arrangements for the social session, to be given next Tuesday night, at their last meeting held in their new rooms in the opera house building. The meeting was one of the best in several months and was greatly enjoyed. The social session promises to be a very pleasant and successful affair.

VISITING IN THE EAST.

SO DECEPTIVE

Many East Liverpool People Fail to Realize the Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing.

Learn the cause—then cure it. Nine times out of ten it comes from the kidneys.

That's why Doan's Kidney Pills cure it.

Cure every kidney ill from backache to diabetes.

Here's an East Liverpool case to prove it.

Mr. S. C. Hill, of Esther, Pa., carpenter, says: "For a year I suffered from pain across the back, difficulty with the kidney secretions and was naturally anxious to procure some treatment which would check it if not radically cure the trouble. Advised by a friend I procured Doan's Kidney Pills at the W. & W. Pharmacy, and I want East Liverpool to thoroughly grasp this fact before I used the entire contents of the box I was cured."

To prove that my convictions were laid on solid foundation I have since purchased for a neighbor of mine three boxes of Doan's Kidney Pills. They cured him. Now when a preparation which cured me in the condition I was in and also my neighbor, a preparation which is held in such estimation in and around East Liverpool, that an acquaintance of mine advised me to obtain it when that preparation performs exactly what it promises what can be expected or any resident of East Liverpool suffering from kidney complaint who will not take advantage of his neighbor's experience and profit by his opinions.

Sold for 50 cents per box by all dealers. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other. Sold by W. & W. Pharmacy.

POTTERY NOTES.

Ernest Bradley, sticker-up at McNicol's, is unable to work owing to sickness.

Owing to a shortage of clay only a small force is working in the clay department at the Klondike.

Miss Ola Birkshaw, of the warehouse at McNicol's, has returned to work after being ill several days.

Albert Dunn, sticker-up at McNicol's, has been confined to his home for the past few days with sickness.

McNicol's has been rushed with orders for decorated ware, but the decorators have been losing time owing to a shortage of ware.

Ed Hatton is working at one of the Southside plants for a few days, there being a shortage of ware in the decorating department at the Standard.

WILL CAUSE ALARM

A Bill of Senator Harvey to Legislate Out Dairy and Food Department Attorneys.

Columbus, February 11.—(Special.)—A bill introduced by Senator Harvey will cause consternation in the already excited dairy and food department and will cause worry for the attorneys of the board of pharmacy and medical registration. The bill seeks in brief to legislate out of office the attorneys of the dairy and food department and the attorneys of the state board of pharmacy and medical registration and places these powers in the hands of the attorney general.

The bill creates a new office in the person of a second assistant attorney general.

Sportsmen Convene.

Columbus, O., Feb. 11.—The national convention of the League of American Sportsmen, with 70 delegates present representing various states and Canada and Alaska, are in session here. Governor Herrick and Mayor Jeffrey delivered addresses of welcome, and after a response by President G. S. Shields of New York the convention got down to business. The most important work was the adoption of a resolution offered by A. C. Cooper of Fort Sill, Okla., asking congress to set aside certain government lands in Oklahoma as a government game propagating farm.

Boiler Manufacturer Dead.

Philadelphia, Feb. 11.—William T. Bates, probably the oldest boiler manufacturer in the United States, died at his home in Conshohocken, near here. Mr. Bates, who was 86 years old, came to this country from England in 1847, and during his life was engaged in the manufacture of boilers in New Jersey, Connecticut, Maryland and this state. He was the inventor of many boiler improvements.

Canners' Convention.

Columbus, O., Feb. 11.—The Western Canned Goods Association, in convention here, elected Dr. A. C. Frazer of Manitowish, Wis., president. The canned goods brokers took steps towards the founding of an organization, electing James M. Paver, Sr., of Indianapolis, president; Fred L. Dutton, New York, secretary, and Lincoln North, New York, vice president.

REALM OF SPORTS

BOWLING MATCH OF MUCH INTEREST

Wellsville and East Liverpool May Get Together For a Series in the Near Future.

The members of the Imperial Bowling team are putting forth every effort in an attempt to get a series of games with the Wellsville team. The locals have been unusually successful during the present year and as the end of the season is in sight they feel that to quit the game properly the scalps of the players in the sister city should be added to their girde of victories.

Until this year the local bowlers have not been so confident of their ability, but having met with so many victories they know that no scrub team can give them the worst of it and feel that for once they have an earned right to challenge all of the best teams in the vicinity. To defeat the Wellsville aggregation a team must be much out of the ordinary, and that is why the locals are so hard after them. The Wellsville boys are not overly anxious for a series, however, and it is thought that some difficulty will be encountered in securing a date with them.

Captain Willet Aten, of the Wellsville team, says that he would personally like to arrange for the series, but that a number of his team are acting indifferently and that he may not be able to line them up. Shingler, one of his right-hand bowlers, complains of an over-rush in business, and positively refuses to play, but Aten says maybe he can get a substitute for him and if so the games will be arranged for next week.

On their home alleys the Wellsville boys can beat any team in the country, but some way or other when they get out of town, especially against teams which have barrels to bowl with, they are found wanting in many particulars. It will be remembered that they rubbed it in for fair on the locals when they played in Wellsville, and that the tables were turned when a return date was played.

A series between these two teams will occasion great interest in both cities, and will be profitable to all concerned.

New Fish And Game Bill.

Representative Wright, of Hocking, has introduced the fish and game bill, proposed by the state commission. Wardens are given the right to search for contraband game. Spring shooting is eliminated. The squirrel season is made later—from September 15 to October 15. The fee for non-residents is reduced from \$25 to \$15. The use of trot lines is prohibited.

BRIBERY AT PRIMARIES

To Be Severely Punished Under a Bill Presented By Senator Bruce.

Columbus, February 11.—(Special.)—A new bill introduced by Senator Bruce seeks to define and punish certain offenses in connection with primary elections or nominating conventions. It provides that any person who shall solicit, request, demand or receive directly or indirectly any money, intoxicating liquor or any other thing of value, to be used at any poll or other place prior to or at an election day to procure votes, shall be fined not more than \$500 or be imprisoned in the penitentiary one year.

"DO IT TODAY."

The time-worn injunction, "Never put off 'til tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it today—and let that remedy be Dr. Boesch's German Syrup, which has been in use for over 35 years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. ALVIN H. BULGER'S.

Twenty Million Catarrh Victims! CAN YOU REALIZE IT? ARE YOU ONE OF THEM?

And every victim caught it from some one else. BRAZILIAN BALM A POSITIVE CURE. Cheapest and best remedy on earth. A \$1.00 bottle gives One Month's treatment. A Tonic and Strength Builder FREE with every \$1.00 Bottle.

If Twenty Millions of our people had Smallpox, Typhoid Fever or Cholera what a cyclone of excitement and horror would sweep over the land. What a rush to get away from it, and what a mighty effort would be made to stamp it out.

Yet CATARRH is worse than either of them. They do their work quick and it is over; while Catarrh hangs on for ever and leads to sure death in some form unless the germs are destroyed and driven from the system. These germs or microbes entrench themselves in the deep and tortuous passages of the head. Brazilian Balm boldly attacks them in their stronghold and compels a surrender of the last microbe. With the head rotting away, the whole system soon becomes impregnated. It is the parent of nearly every other disease.

Forty Years Ago

There were less than 10,000 Catarrh Victims in the land. To-day there are over twenty million. It has become the NATIONAL DISEASE. Catarrh is every where. In every city, town and hamlet. On every mountain, in every valley and plain; in forest and prairie.

The rich, the poor, the business man, the mechanic, the laborer, the mistress, the maid; it knows no class, no sex, no station. It is the universal malady, the yellow distemper, the disease that is the parent of nearly all other diseases, the slow but sure yellow death, the curse of the land.

Urgency.

Something must be done to arrest this rapidly spreading scourge and done quickly. Each individual must wake up, each community must wake up, the Nation must wake up and take prompt action to stay the progress of the plague. The one remedy that has been found able to cope with this putrid disease and stay its ravages is Brazilian Balm. For 15 years its march has been a march of triumph. Its cures are permanent and are numbered by the tens of thousands. For every disease, the good Father has given a sure antidote if we can find it. The antidote for Catarrh has been found in Brazilian Balm. It destroys the Catarrh microbe. It clears the head of foul mucus; it makes the breath and discharges immune (non-contagious); it relieves the headache and gradually heals

the ulcers, the running sores in the head, thus stopping the dropping into the throat. At the same time the cough, the asthma and bronchitis and sore throat will disappear, also all stomach trouble, caused by constant swallowing of the putrid Catarrh pus. And as your Catarrh disappears all your weakness will change to strength and vitality and you will be like your old self again.

Economy.

It will not cost you \$5.00 or \$10.00 a month. A \$1.00 bottle of Brazilian Balm contains a whole month's treatment, and from this on for six months we will wrap with each \$1.00 bottle a month's treatment of TOXICOCOLA TABLETS. These tablets are a great tonic; they wake up the liver, aid digestion, strengthen the nerves and give vitality to every organ. No such effort to suffer from Catarrh, Asthma, Bronchitis, Consumption and Stomach troubles has ever made before. Summer is the best time to treat Catarrh, as it is not so violent as in winter. B. F. POSTOFFICE ROBBED.

Thieves Scare Postmistress and Take All the Cash.

Clairton, Pa., Feb. 11.—Robbers entered the postoffice at Blair station, near Clairton, robbed the postmistress, Miss Margaret White, at the point of a revolver, and got away with \$290, the entire cash fund of the office. Posses of citizens and officers of the law scoured the vicinity and telephoned a description of the robbers in every direction. Miss White tells the story of the robbery herself. She was so frightened, she says, that it was several minutes after the men got away before she was capable of giving the alarm.

Blair station is a mile from the center of Clairton on the Pittsburg, Virginia and Charleston railroad. Many of the workers in the new steel community live at Blair. The postoffice is in a small storeroom near the railroad station.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be ward off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. INTERESTED IN WAR.

The war between Russia and Japan has outdistanced all else among the operatives and if the news continues exciting the next pay will be a few dollars shy. The question of right and might figures a great deal in the discussions, which take place many times a day. It is a bit remarkable that the vast majority of the people favor the Japs and express the wish, perhaps fathered by the wish that Japan will win. One prominent pottery manager, who was in a crowd of 26 local men, well known in pottery and professional circles, states that not one favored Russia.

PAINFUL INJURY.

John Tolbert, the boss packer at McNicol's, is suffering with a very sore hand, the result of an accident that happened him a few days ago. He was helping load some casks into a car when a nail protruding through one of the hoops struck him in the palm of the left hand, entering almost to the bone. The nail was rusty and for this reason the wound is rather dangerous.

NO. 9 WILL VOTE.

Local union No. 9 will have the proposition to change the time for holding the national conventions up for consideration at the meeting tomorrow night. There is very little doubt but that the vote will be unanimously affirmative, as the kilnmen, like the pressers and jigmen, were petitioners that the proposition be submitted to a vote of the trade.

NO. 32'S SOCIAL.

Local No. 32 perfected arrangements for the social session, to be given next Tuesday night, at their last meeting held in their new rooms in the opera house building. The meeting was one of the best in several months and was greatly enjoyed. The social session promises to be a very pleasant and successful affair.

SO DECEPTIVE

Many East Liverpool People Fail to Realize the Seriousness.

Backache is so deceptive.

It comes and goes—keeps you guessing.

Learn the cause—then cure it.

Nine times out of ten it comes from the kidneys.

That's why Doan's Kidney Pills cure it.

Cure every kidney ill from backache to diabetes.

Here's an East Liverpool case to prove it.

Mr. S. C. Hill, of Esther, Pa., carpenter, says: "For a year I suffered from pain across the back, difficulty with the kidney secretions and was naturally anxious to procure some treatment which would check it if not radically cure the trouble. Advised by a friend I procured Doan's Kidney Pills at the W. & W. Pharmacy, and I want East Liverpool to thoroughly grasp this fact before I used the entire contents of the box I was cured. To prove that my convictions were laid on solid foundation I have since purchased for a neighbor of mine three boxes of Doan's Kidney Pills. They cured him. Now when a preparation which cured me in the condition I was in and also my neighbor, a preparation which is held in such estimation in and around East Liverpool, that an acquaintance of mine advised me through a newspaper statement to obtain it when that preparation performs exactly what it promises what can be expected or any resident of East Liverpool suffering from kidney complaint who will not take advantage of his neighbor's experience and profit by his opinions.

Sold for 50 cents per box by all dealers. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other. Sold by W. & W. Pharmacy.

POTTERY NOTES.

Ernest Bradley, sticker-up at McNicol's, is unable to work owing to sickness.

Owing to a shortage of clay only a small force is working in the clay department at the Klondike.

Miss Ola Birkshaw, of the warehouse at McNicol's, has returned to work after being ill several days.

Albert Dunn, sticker-up at McNicol's, has been confined to his home for the past few days with sickness.

McNicol's has been rushed with orders for decorated ware, but the decorators have been losing time owing to a shortage of ware.

Ed Hutton is working at one of the Southside plants for a few days, there being a shortage of ware in the decorating department at the Standard.

WILL CAUSE ALARM

A Bill of Senator Harvey to Legislate Out Dairy and Food Department Attorneys.

Columbus, February 11.—(Special.)—A bill introduced by Senator Harvey will cause consternation in the already excited dairy and food department and will cause worry for the attorneys of the board of pharmacy and medical registration. The bill seeks in brief to legislate out of office the attorneys of the dairy and food department and the attorneys of the state board of pharmacy and medical registration and places these powers in the hands of the attorney general.

The bill creates a new office in the person of a second assistant attorney general.

Sportsmen Convene.

Columbus, O., Feb. 11.—The national convention of the League of American Sportsmen, with 70 delegates present representing various states and Canada and Alaska, are in session here. Governor Herrick and Mayor Jeffrey delivered addresses of welcome, and after a response by President G. S. Shields of New York the convention got down to business.

The most important work was the adoption of a resolution offered by A. C. Cooper of Fort Sill, Okla., asking congress to set aside certain government lands in Oklahoma as a government game propagating farm.

Boiler Manufacturer Dead.

Philadelphia, Feb. 11.—William T. Bates, probably the oldest boiler manufacturer in the United States, died at his home in Conshohocken, near here. Mr. Bates, who was 86 years old, came to this country from England in 1847, and during his life was engaged in the manufacture of boilers in New Jersey, Connecticut, Maryland and this state. He was the inventor of many boiler improvements.

Canners' Convention.

Columbus, O., Feb. 11.—The Western Canned Goods association, in convention here, elected Dr. A. C. Fravor of Manitowish, Wis., president. The canned goods brokers took steps towards the founding of an organization, electing James M. Payer, Sr., of Indianapolis, president; Fred L. Dutton, New York, secretary, and Lincoln North, New York, vice president.

REALM OF SPORTS

BOWLING MATCH
OF MUCH INTEREST

Wellsville And East Liverpool May Get Together For a Series in the Near Future.

The members of the Imperial Bowling team are putting forth every effort in an attempt to get a series of games with the Wellsville team. The locals have been unusually successful during the present year and as the end of the season is in sight they feel that to quit the game properly the scalps of the players in the sister city should be added to their girde of victories.

Until this year the local bowlers have not been so confident of their ability, but having met with so many victories they know that no scrub team can give them the worst of it and feel that for once they have an earned right to challenge all of the best teams in the vicinity.

To defeat the Wellsville aggregation a team must be much out of the ordinary, and that is why the locals are so hard after them. The Wellsville boys are not overly anxious for a series, however, and it is thought that some difficulty will be encountered in securing a date with them.

Captain Willet Aten, of the Wellsville team, says that he would personally like to arrange for the series, but that a number of his team are acting indifferently and that he may not be able to line them up. Shingler, one of his right-hand bowlers, complains of an over-rush in business, and positively refuses to play, but Aten says maybe he can get a substitute for him and if so the games will be arranged for next week.

On their home alleys the Wellsville boys can beat any team in the country, but some way or other when they get out of town, especially against teams which have barrels to bowl with, they are found wanting in many particulars. It will be remembered that they rubbed it in for fair on the locals when they played in Wellsville, and that the tables were turned when a return date was played.

A series between these two teams will occasion great interest in both cities, and will be profitable to all concerned.

New Fish And Game Bill.

Representative Wright, of Hocking, has introduced the fish and game bill, proposed by the state commission. Wardens are given the right to search for contraband game. Spring shooting is eliminated. The squirrel season is made later—from September 15 to October 15. The fee for non-residents is reduced from \$25 to \$15. The use of trot lines is prohibited.

BRIBERY AT PRIMARIES

To Be Severely Punished Under a Bill Presented by Senator Bruce.

Columbus, February 11.—(Special.)—A new bill introduced by Senator Bruce seeks to define and punish certain offenses in connection with primary elections or nominating conventions. It provides that any person who shall solicit, request, demand or receive directly or indirectly any money, intoxicating liquor or any other thing of value, to be used at any poll or other place prior to or at an election day to procure votes, shall be fined not more than \$500 or be imprisoned in the penitentiary one year.

"DO IT TODAY."

The time-worn injunction, "Never put off 'til tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it today—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over 35 years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. Twenty Million Catarrh Victims!

CAN YOU REALIZE IT? ARE YOU ONE OF THEM?

And every victim caught it from some one else. **BRAZILIAN BALM A POSITIVE CURE.**

Cheapest and best remedy on earth. A \$1.00 bottle gives One Month's treatment. A Tonic and Strength Builder FREE with every \$1.00 Bottle.

If Twenty Millions of our people had Smallpox, typhoid Fever or Cholera what a cyclone of excitement and horror would sweep over the land. What a rush to get away from it, and what a mighty effort would be made to stamp it out.

Yet CATARRH is worse than either of them. They do their work quick and it is over; while Catarrh hangs on for ever and leads to sure death in some form unless the germs are destroyed and driven from the system. These germs or microbes entrench themselves in the deep and tortuous passages of the head. Brazilian Balm boldly attacks them in their stronghold and compels a surrender of the last microbe. With the head rotting away, the whole system soon becomes impregnated. It is the germ of nearly every other disease.

The rich, the poor, the business man, the mechanic, the laborer, the mistress, the maid; it knows no class, no sex, no station. It is the universal malady, the yellow distemper, the disease that is the parent of nearly all other diseases, the slow but sure yellow death, the curse of the land.

Urgency.

Something must be done to arrest this rapidly spreading scourge and done quickly. Each individual must wake up, each community must wake up, the Nation must wake up and take prompt action to stay the progress of the plague. The one remedy that has been found able to cope with this putrid disease and stay its ravages is Brazilian Balm. For 15 years its march has been a march of triumph. Its cures are permanent and are numbered by the tens of thousands. For every disease, the good Father has given a sure antidote if we can find it. The antidote for Catarrh has been found in Brazilian Balm. It destroys the Catarrh microbe. It clears the head of foul mucus; it makes the breath and discharges immune (non-contagious); it relieves the headache and gradually heals

Forty Years Ago

There were less than 10,000 Catarrh Victims in the land. To-day there are over twenty million. It has become the NATIONAL DISEASE. Catarrh is every where. In every city, town and hamlet. On every mountain, in every valley and plain; in forest and prairie.

WEAK AND NERVOUS WOMEN

MADE STRONG AND WELL BY
DR. GREENE'S NERVURA.

Woman's life is a tragedy. It is a succession of defeats. Through ignorance the first experiences of womanhood are encountered without the slightest preparation, and the nerves receive their first serious shock.

Nothing is done to relieve the young woman. No one seems to possess the knowledge which will aid her. The family physician makes light of her troubles and tells her that all women have them. She is a beautiful girl and should make a beautiful woman. Her disposition is sweet, her form and movement full of grace. Why can she not retain these gifts of nature?

She has sensitive nerves and every shock they receive leaves its mark on face or form or disposition—generally on all. She has some severe illness. Her courage is shaken by the prospect of constantly recurring suffering, and at twenty she is pale and thin, alternately cheerful and sad, but always nervous. Then she marries; new obligations are undertaken with additional strain on the nerves. A year or two further along she begins to have turns of being cross and snappy, and can't seem to help it. From this point on to middle age the lines of beauty are replaced by lines of care, and control of the nerves is presently entirely gone. There is a great pity in all this, for such a history is common.

Dr. Greene's Nervura

Blood and Nerve Remedy
MAKES PEOPLE STRONG, VIGOROUS AND WELL.

What a blessing Dr. Greene's Nervura blood and nerve remedy is to such women! It sustains them in every trial and fortifies them for their daily duties. It makes women strong enough to do their whole duty without fatigue. It sustains the physical strength and the physical beauty and wards off nervousness by natural means. It is a perfect support at any stage of woman's life. The grandest medicine for weak and suffering women ever prepared.

Mrs. Alice Craig, of Peoria, Ill., says: "I was stricken with nervous disease which affected my heart, head and stomach. I doctored with physicians of our town, but got no relief from the terrible sick headaches, pains in the heart and stomach until I used Dr. Greene's Nervura blood and nerve remedy. Before I used this wonderful medicine the nerves in my eyes were so affected that I feared that I would lose my sight. I would get so nervous and weak I could not walk across the room without terrible palpitation of the heart. I had not taken one bottle of Dr. Greene's Nervura blood and nerve remedy before my head and eyes were cleared of their dull aching, and I am growing stronger every day. I cannot do half justice in the praise of this medicine."

The discoverer of this health-building remedy is Dr. Greene, of 101 Fifth Avenue, New York City, and all women may consult him personally or by letter without charge. The young, middle-aged, or old will find his advice the promptest and surest help. Write freely for advice or call upon him.

Your Druggist recommends and sells Dr. Greene's Nervura.

CONDITION IMPROVED

Baltimore Rallies Somewhat and Plans for Early Resumption of Business.

SPECIAL COMMITTEE APPOINTED

Precautions Are Taken to Guard the Vast Treasure Buried Under Ruins—Soldiers Almost Worn Out by Their Long Sentry.

Baltimore, Feb. 11.—The situation in stricken Baltimore began to visibly clear after a conference at the Belvidere hotel between Mayor McLane, a special joint committee of the legislature and a formidable delegation of representative business men. This conference was arranged with a view of meeting in a practical way the awful exigency which this community now faces. At this meeting, besides the mayor, there were present influential members of the state law-making body, the board of public works, a dozen bank presidents, former Governor Smith, United States Senator-elect Rayner and several of the leading citizens.

The supreme question to be decided was that of calling upon the national government for soldiers to take the places of two-state militia regiments now doing police duty in the burned district. The constitution of Maryland requires that no such request can be made of the president except by authority of the state legislature. The legislative committee was present to hear the views of the mayor and officers of the city on that point.

A brief discussion showed the belief of those present that this is not a time for sentiment as to the ability of the state to take care of it and that the United States soldiers were needed, and needed at once. On this score it was shown that the militiamen were already much exhausted by their long continued sentry duty; that they should be relieved in order that they might return to their several vocations, and that the military on active duty is costing the state \$50,000 a day.

Federal Soldiers Needed.

Mayor McLane was particularly insistent that to efficiently guard the hundreds of millions of treasure that lay buried beneath the smoldering ruins called for the strong arm of the federal soldiers. The announcement of the legislative committee that it would recommend at once the immediate passage of the necessary resolution was received with pleasure.

Mayor McLane's announcement that he will appoint an emergency committee of citizens to act as an advisory board to municipal officials is a great step forward in the way of putting the situation upon a practical business-like basis.

There is no doubt that within the past 24 hours the business men of Baltimore have been aroused in an extraordinary degree to the importance of doing everything possible to keep their trade advantages from slipping away. Merchants and bankers have been conferring on this subject and the prevailing conviction is that it will require the utmost vigilance to prevent the defection of a considerable volume of commerce to Philadelphia and New York. It is believed here that the situation can be saved if the debris can be cleared away and temporary buildings erected within four months. That a large percentage of the spring trade will be lost is inevitable, but there is a set resolution among wholesale merchants that the percentage shall be small as possible.

The opening of the board room by the chamber of commerce and the receipt of quotations, the uninterrupted shipments of grain cargoes, the certainty of state aid and the notification by some of the large insurance companies of their readiness to pay 50 per cent on losses and the action of the legislature in asking for federal troops constitute a chain of incidents which have contributed materially to the restoration of public confidence and cheerfulness. Mayor McLane reconsidered his previous determination to announce that he would accept outside aid. On this subject he said:

No Destitution Results.

"The situation here does not justify such action. There is no destitution as yet. I cannot tell what may follow. We have a board of charities which looks after the city's destitute. This board is in close touch with all the organized charities. An appropriation is made annually for the purpose of taking care of cases of destitution. There are some funds on hand now and it may be that the state appropriation will be sufficient to take care of those who require relief. Of course it may yet be necessary to ask for outside financial aid. We have received by contribution from various cities about \$7,000 and additional offers of thousands of dollars have been made."

There is no doubt that Baltimore has taken fresh courage. On all the streets abutting upon the desolated districts signs have appeared on windows, and over doorways announcing the temporary resumption of business in various lines. The best citizens have taken hold of the herculean task of resurrection with a will that betokens complete success. To illustrate that the police authorities are using every endeavor to protect the losers by the fire and other

"I wrote to Dr. Pierce for advice though I thought surely I would die."

"After my baby came in January, 1903," writes Mrs. Nancy Abner, of St. Paul, Ark. "I suffered severely from all sorts of aches and pains, until the following May, when I read one of your pamphlets, treating on female diseases. I wrote to Dr. Pierce for advice, although I thought surely I would die. As our physician told me I was more liable to die than to get well, your fatherly advice caused my health to be restored. I took five bottles of Dr. Pierce's Favorite Prescription, three of 'Golden Medical Discovery' and three vials of 'Pellies' together with your other remedies, and I am now able to do all my work."

Weak and sick women are invited to consult Dr. Pierce, by letter, free, and so obtain without charge or fee the advice of a specialist upon diseases peculiar to women. All correspondence is held as strictly private and is confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The invitation to consult Dr. Pierce, by letter, free, is not to be confused with offers of "free" medical advice made by irresponsible persons who are not physicians and are professionally and legally disqualified for the practice of medicine.

Dr. Pierce's Favorite Prescription is a safe and reliable remedy for the cure of womanly ills. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expenses of mailing only. Send 21 one-cent stamps for the book in paper covers, or 11 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Residents of the city have telegraphed for "plain clothes men" to come here from several points to look out for crooks. About 40 men arrived from New York city, Philadelphia, Washington and Harrisburg and other nearby towns. They will be reinforced by a large number from more distant points.

The police department has made renewed efforts to prevent the sale of intoxicating liquors in the city. The patrolmen were informed that they would be held personally responsible for any violations of the excise laws. They were instructed to arrest hotel keepers whom they find dispensing liquors to others than bona fide guests, all saloonkeepers violating the law and the agents of all wholesale dealers and brewers who deliver spirituous liquors or beer to retailers.

PANAMA CANAL TREATY SUPPORTED IN SENATE.

House Disposes of Connell-Howell Case—Further Consideration of Loan to St. Louis Exposition.

Washington, Feb. 11.—The major portion of the time of the senate in open session was devoted to a speech by Mr. McCumber, who supported the Panama canal treaty and justified all the acts of the administration in connection with the recent revolt. A number of private pension bills were passed.

The house disposed of the Connell-Howell contested election case from the Tenth Pennsylvania district in favor of Mr. Connell. The Republicans, with three exceptions, Lanning (N. J.), Shiras (Pa.) and Parker (N. J.), supported the resolution unseating Mr. Howell and giving the seat to the contestant. The Democrats solidly supported Mr. Howell. Mr. Shiras and Mr. Lanning spoke in opposition to the unseating of Mr. Howell. Mr. Connell was promptly sworn in and took his seat.

The house then resumed consideration of the senate amendment proposing a loan of \$4,600,000 to the Louisiana Purchase exposition. Further opposition to the proposition developed in the debate.

EAST END PETITION GRANTED

Gas Main of Fort Pitt Company Will Be Extended to Midway Addition.

The petition of the property owners of the Midway addition to the Tri-State Gas company asking that the mains be extended to reach their houses, has been acted upon favorably by Supt. Hunter, of the company. The petition was presented to him only a few days ago and the prompt action has greatly pleased those concerned.

Supt. Hunter gave the assurance that the main will be extended as soon as the frost goes out of the ground, this being necessary in laying the pipes.

Several other sections of the East End are not reached by the gas mains and Supt. Hunter states that there may be other extensions as soon as the weather permits.

BUILDING STARTED

Freedom Oil Company Lets Contract for First of Three Buildings at Its New Depot.

The Freedom Oil company has commenced the erection of the buildings for its new depot on the property adjoining the Midway Land company's first addition. The siding from the railroad tracts is almost completed, the work having been started last fall.

The company will build a stable, a depot for the oil tanks and a house for the resident manager. The contract for the stable has been let to James Robinette, who with a force of men has commenced work on the structure.

Potters Home.

Louis Sanford, James Myler and Thomas Ramsay, employed at the Cameron pottery, reached home yesterday to remain a few days while the operation of the plant is suspended. There is a shortage of clay which has caused a loaf among all the clay hands. The engines at the plant are being repaired during the loaf.

Pronounced a Duster.

The oil well on the Jesse Smith marm, when cleaned and bailed yesterday afternoon, failed to show oil and has been pronounced a duster. This is the third venture of the Rock Run company and it could not be learned today if it would make further tests.

Kontnir Very Ill.

Charles Kontnir, president of No. 52, the street car employees' local union, is confined to his home on Boyce street with a severe attack of the grip. He has not been able to be at work the past four or five days.

Councilman Zed Smith Better.

Councilman Zed Smith, who has been very seriously ill at his home on St. George street for several weeks, is improving. He was able to sit up this morning, but it will be several days before he can leave his bed.

Farmer Entertained.

William Farmer, of Edgewood, entertained a number of friends at his home last night. The amusements were games and music. Mr. Farmer delighting his guests with several violin and vocal selections.

EAST END AFFAIRS.

Mrs. Fred Riley is making a short visit with Pittsburgh relatives. Ed Gilgore, of Homestead, was the guest of Ross Mercer yesterday.

Alex Brownless, of Calhoun's addition, is able to be out after a long illness with lumbago.

Buckeye castle, Knights of the Golden Eagle, will meet in regular session tomorrow night.

Good Will Council No. 13 will hold a hatchet social on the evening of Washington's birthday.

Ed Allison's little daughter Helen has been very seriously ill with a threatened attack of pneumonia.

Mrs. William Finley, of St. George street, has been confined to her room the past few days with sickness.

Walter C. Supplee, ill for the past three weeks at his home on Ohio avenue, was able to sit up this morning, the first time since his condition became serious.

Mr. and Mrs. Bert McKinney, of High street, were surprised last night by a number of their friends, who called to spend the evening with them. Games and music helped to make the moments fly and all had a pleasant time.

IT MAKES YOU SHUDDER.

"No matter how dainty food may be or how carefully prepared, it looks simply repugnant to you, does it not?" says the Romoc man. "That dull pain in your stomach caused you to simply loathe the sight of food—you cannot eat and yet you want something and don't know what. When you do eat, you suffer tortures afterwards. Do you realize what will happen to you if you continue in this way. Your body will become depleted and any sickness is apt to take hold of you. If you escape such evils, you will do as lots of other dyspeptics have done—die of exhaustion. Or perhaps the irritation of your stomach will become so bad that gastric ulcers will form and hemorrhages from the stomach will ensue. You positively can avoid all these troubles by taking Romoc. It is Nature's own remedy. It contains no injurious drugs nor a particle of alcohol. Romoc builds up your entire system. It will make your stomach strong and will help it to digest the food eaten and what is best of all create a healthy, natural appetite. My word for it, Mr. Man, with indigestion, a single bottle of Romoc will prove to you that there is more in Nature than you have ever dreamed of."

CANCER CURED BY LIFE PLANT

While the proprietors of LIFE PLANT have always guaranteed a cure or money refunded, in all cases of Rheumatism, Gout, Stomach and Liver troubles, and all ordinary forms of skin and blood diseases, they have never said that it was a certain cure for Cancer, but that it does cure Cancer is fully established by the following letter:

Gentlemen:—NEW CUMBERLAND, O., Nov. 2, 1903.

Eleven years ago a cancer appeared on my left ear. It was small at first, but as the case with a growth of this kind, it gradually increased in size and severity. One of the cat-taliges of the ear was entirely eaten away. There was a raw sore on my ear and face as broad as your finger and about two inches long. You can imagine how I suffered.

That eating, gnawing sensation continued without interruption day or night. Occasionally a blood vessel was eaten off and the blood would trickle down my face. For three years I could not be in bed without using up my face on account of the continued suppuration of the wound. My condition was indeed deplorable; a rancorous, loathsome cancer, eating away my life, inch by inch.

I, of course, sought advice from numerous physicians; I called upon physicians of St. Louis and Cleveland, and was under treatment by local physicians for a number of years. The last physician to whom I talked told me plainly that I would not live four months unless I submitted to an operation. It was then that the good old Rev. Scott told me he thought that Life Plant would help me.

I immediately began taking Life Plant; I had not taken one bottle until the eating sensation lessened. I stopped all other treatment, and have taken nothing but Life Plant since.

I realized that I could not be cured of a disease that had been coming on me for years and had reached the stage of development that my case had, by one or two bottles of Life Plant or any other medicine. I settled down to taking this one remedy, and, while I improved from the very beginning, the cancer was not entirely cured for years.

I began taking Life Plant on or about the 10th day of September, 1897, and now I am 57 years of age, and as well as ever, sound in every particular. There is no more cancer, the sore is entirely healed, and nothing but a scar remains to show that my life was once threatened with a deadly cancer.

Now I want to say that in view of the fact that cancer is one of the most severe and stubborn blood diseases known, and in view of the fact that Life Plant cured me, I firmly believe that Life Plant will cure any disease arising from impure blood if the patient will persist in its use as I did. I have said nothing but the truth, and stand ready to back every word with an affidavit if called upon to do so. Wishing you success, I am sincerely yours,

JAMES D. MILLER.

WEAK AND NERVOUS WOMEN

MADE STRONG AND WELL BY

DR. GREENE'S NERVURA.

Woman's life is a tragedy. It is a succession of defeats. Through ignorance the first experiences of womanhood are encountered without the slightest preparation, and the nerves receive their first serious shock.

Nothing is done to relieve the young woman. No one seems to possess the knowledge which will aid her. The family physician makes light of her troubles and tells her that all women have them. She is a beautiful girl and should make a beautiful woman. Her disposition is sweet, her form and movement full of grace. Why can she not retain these gifts of nature?

She has sensitive nerves and every shock they receive leaves its mark on face or form or disposition—generally on all. She has some severe illness. Her courage is shaken by the prospect of constantly recurring suffering, and at twenty she is pale and thin, alternately cheerful and sad, but always nervous. Then she marries; new obligations are undertaken with additional strain on the nerves. A year or two further along she begins to have turns of being cross and snappy, and can't seem to help. From this point on to middle age the lines of beauty are replaced by lines of care, and control of the nerves is presently entirely gone. There is a great pity in all this, for such a history is common.

Dr. Greene's Nervura

Blood and Nerve Remedy

MAKES PEOPLE STRONG, VIGOROUS AND WELL.

What a blessing Dr. Greene's Nervura blood and nerve remedy is to such women! It sustains them in every trial and fortifies them for their daily duties. It makes women strong enough to do their whole duty without fatigue. It sustains the physical strength and the physical beauty and wards off nervousness by natural means. It is a perfect support at any stage of woman's life. The grandest medicine for weak and suffering women ever prepared.

Mrs. Alice Craig, of Peoria, Ill., says: "I was stricken with nervous disease which affected my heart, head and stomach. I doctored with physicians of our town, but got no relief from the terrible sick headaches, pains in the heart and stomach until I used Dr. Greene's Nervura blood and nerve remedy. Before I used this wonderful medicine the nerves in my eyes were so affected that I feared that I would lose my sight. I would get so nervous and weak I could not walk across the room without terrible palpitation of the heart. I had not taken one bottle of Dr. Greene's Nervura blood and nerve remedy before my head and eyes were cleared of their dull aching, and I am growing stronger every day. I cannot do half justice in the praise of this medicine."

The discoverer of this health-building remedy is Dr. Greene, of 101 Fifth Avenue, New York City, and all women may consult him personally or by letter without charge. The young, middle-aged, or old will find his advice the promptest and surest help. Write freely for advice or call upon him.

The oil well on the Jesse Smith marm, when cleaned and bailed yesterday afternoon, failed to show oil and has been pronounced a duster. This is the third venture of the Rock Run company and it could not be learned today if it would make further tests.

Charles Kontniar, president of No. 52, the street car employees' local union, is confined to his home on Boyce street with a severe attack of the grip. He has not been able to be at work the past four or five days.

Councilman Smith Better.

Councilman Zed Smith, who has been very seriously ill at his home on St. George street for several weeks, is improving. He was able to sit up this morning, but it will be several days before he can leave his bed.

Farmer Entertained.

William Farmer, of Edgewood, entertained a number of friends at his home last night. The amusements were games and music. Mr. Farmer delighted his guests with several violin and vocal selections.

EAST END AFFAIRS.

Mrs. Fred Riley is making a short visit with Pittsburg relatives.

Ed Gilgore, of Homestead, was the guest of Ross Mercer yesterday.

Alex Brownless, of Calhoun's addition, is able to be out after a long illness with lumbago.

Buckeye castle, Knights of the Golden Eagle, will meet in regular session tomorrow night.

Good Will Council No. 13 will hold a hatching social on the evening of Washington's birthday.

Ed Allison's little daughter Helen has been very seriously ill with a threatened attack of pneumonia.

Mrs. William Finley, of St. George street, has been confined to her room the past few days with sickness.

Walter C. Supplee, ill for the past three weeks at his home on Ohio avenue, was able to sit up this morning, the first time since his condition became serious.

Mr. and Mrs. Bert McKinney, of High street, were surprised last night by a number of their friends, who called to spend the evening with them. Games and music helped to make the moments fly and all had a pleasant time.

Ohio Wants Naval Station.

Washington, Feb. 11.—The Ohio delegation in the house met and introduced an amendment to the naval appropriation bill providing for a naval training station at Put-in-Bay, on Lake Erie, instead of the proposed station on Lake Michigan.

IT MAKES YOU SHUDDER.

"No matter how dainty food may be or how carefully prepared, it looks simply repugnant to you, does it not?" says the Romoc man. "That dull pain in your stomach caused you to simply loathe the sight of food—you cannot eat and yet you want something and don't know what. When you do eat, you suffer tortures afterwards. Do you realize what will happen to you if you continue in this way. Your body will become depleted and any sickness is apt to take hold of you. If you escape such evils, you will do as lots of other dyspeptics have done—die of exhaustion. Or perhaps the irritation of your stomach will become so bad that gastric ulcers will form and hemorrhages from the stomach will ensue. You positively can avoid all these troubles by taking Romoc. It is Nature's own remedy. It contains no injurious drugs nor a particle of alcohol. Romoc builds up your entire system. It will make your stomach strong and will help it to digest the food eaten and what is best of all create a healthy, natural appetite. My word for it, Mr. Man, with indigestion, a single bottle of Romoc will prove to you that there is more in Nature than you have ever dreamed of."

Ask for ROMOC LAXATIVE TABLETS—SURE CURE FOR CONSTIPATION.

We have investigated Romoc. We know that all that is said by the Romoc man pertaining to this wonderful remedy is true, and we will refund to anyone the price of the remedy not satisfied with the results obtained. Remember, Romoc is guaranteed and sold by

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a lifetime curing just such cases as yours. All consultations are FREE.

A Grand Old Soldier. Troubled With Severe Pains in His Back for 30 Years.

I have been troubled with severe pains in my back and kidneys for over 30 years caused by exposure during the Civil War.

I tried many Patent Medicines and physicians but could secure no permanent relief.

A sample bottle of Dr. Fenner's Kidney and Backache Cure was given me and it did me so much good that I finally took several of your dollar sized bottles which effected a prompt and permanent cure.

It is pleasant to take. You may refer any one to me as I shall take great pleasure in recommending it.

CANCER CURED BY LIFE PLANT

While the proprietors of LIFE PLANT have always guaranteed a cure or money refunded, in all cases of Rheumatism, Gout, Stomach and Liver troubles, and all ordinary forms of skin and blood diseases, they have never said that it was a certain cure for Cancer, but that it does cure Cancer is fully established by the following letter:

Gentlemen:—NEW CUMBERLAND, O., Nov. 2, 1903.
Eleven years ago a cancer appeared on my left ear. It was small at first, but, as the case with a growth of this kind, it gradually increased in size and severity. One of the cartilages of the ear was entirely eaten away. There was a raw sore on my ear and face as broad as your finger and about two inches long. You can imagine how I suffered.
That eating, gnawing sensation continued without interruption day or night. Occasionally a blood vessel was eaten off and the blood would trickle down my face. For three years I could not be in bed without tying up my face on account of the continued suppuration of the wound. My condition was indeed deplorable; a rancorous, loathsome cancer, eating away my life, inch by inch.
I, of course, sought advice from numerous physicians; I called upon physicians of St. Louis and Cleveland, and was under treatment by local physicians for a number of years. The last physician to whom I applied told me plainly that I would not live four months unless I submitted to an operation. It was then that the good old Rev. Scott told me he thought that Life Plant would help me.
I immediately began taking Life Plant; I had not taken one bottle until the eating sensation lessened. I stopped all other treatment, and have taken nothing but Life Plant since.
I realized that I could not be cured of a disease that had been coming on me for years and had reached the stage of development that my case had, by one or two bottles of Life Plant or any other medicine. I settled down to taking this one remedy, and while I improved from the very beginning, the cancer was not entirely cured for years.
I began taking Life Plant on or about the 10th day of September, 1897, and now I am 57 years of age, and as well as ever, sound in every particular. There is no more cancer, the sore is entirely healed, and nothing but a scar remains to show that my life was once threatened with a deadly cancer.
Now I want to say that in view of the fact that cancer is one of the most severe and stubborn blood diseases known, and in view of the fact that Life Plant cured me, I firmly believe that Life Plant will cure any disease arising from impure blood if the patient will persist in its use as I did. I have said nothing but the truth, and stand ready to back every word with an affidavit if called upon to do so. Wishing you success, I am sincerely yours,
JAMES D. MILLIS.

THURSDAY, FEBRUARY 11, 1904.

"In a few weeks," says the Youngstown Telegram, "it will be necessary for the Republicans of the congressional district to meet in convention to select delegates to the national Republican convention. Inasmuch as James Kennedy will be given a unanimous renomination for congress, it is supposed that that renomination will be made at the same time." The paper then proposes that the convention be held in Youngstown, and asks what Stark and Columbiana say about it. Has Youngstown any particular advantages over East Liverpool as a convention city? We think not. Mahoning, having the congressman, might give us the convention if she were disposed to be magnanimous.

East Liverpool is not the coldest spot in the country. Those chunks of ice that have been floating steadily past on the Ohio river for three days are a reminder that we have escaped a good deal of winter after all, while our Pennsylvania neighbors have been less fortunate.

The coming entertainment for the benefit of the hospital is likely to be well worth seeing and certainly should draw a liberal patronage, when the object is considered. Attention is called to the notices in another column. They should interest everybody.

Hon. E. W. Hill believes not only that the natural gas companies should obey the law, but also that some laws should be framed that are not wholly in their interests. His bill asks a good deal of them, but dare they assert that it asks anything unreasonable?

The Japanese may not have had as much training in the art of war as the Russians, but they go at the work before them with skill, vigor and de-

termination well calculated to win respect for them among the world's powers.

Fear of "party disruption" is frequently expressed by Democrats of the old school. If they read and kept posted they would know that their worst fears have already been realized.

Japan is determined to boom the American ship building industry. The best Russian warship which she is reported to have sunk, was built in a Philadelphia shipyard.

The allegation that Bryan is for Hearst is a calumny. Hearst is one of those plutocrats that the Nebraskan has been hammering ever since he was knee-high.

No syndicate has yet been formed to control the production of the American hen. Why the trust promoters have overlooked this great source of wealth is a mystery.

Why not let Colonel Bryan and Colonel Watterson meet and settle it in Kentucky style? Their prolonged jawing match has become wearisome.

The Russian bear is not much in a sea fight, but is keeping up his courage by visions of what he will do in the first land battle.

If this thing keeps up the cotton growers will soon be vying with the oil kings as men of wealth.

Richard Harding Davis has started out to edit the Russian-Japanese war. Where is Sylvester Scovel?

'Squire Rose bore with becoming modesty the blushing honors thickly thrust upon him.

The Japs do not fight like novices.

AT THE THEATER

Lyman Howe, the greatest and best known moving picture exhibitor, will present his new collection of views from all parts of the world at the Grand opera house on next Tuesday, matinee and evening, under the auspices of the hospital association. No other similar show has a more enduring record. He has made 18 semi-annual tours. Each one from the first has been a great success and has increased his popularity, because his main endeavor has been to give the people just what they want—only high-class, up-to-date entertainment.

Mr. Howe personally tours Europe each season to secure pictures from all parts of the world and his collection this season surpasses anything and everything of this kind ever seen in America.

An inspiring spectacle, one of the most beautiful pictures ever set on any stage, is that entitled, "While Old Glory Waves," presented by the Al. G. Field Greater Minstrels. It is a wilderness of patriotic color and music, and a stage picture that once seen will never be forgotten. The set occurs in the spectacle, "Minstrel's Tribute to the Twentieth Century," a beautiful stage picture and transformation scene of entrancing beauty. The camp, the march, the review, are all shown, interspersed with original music, taking songs, the finale ending with the big picture, "While Old Glory Waves."

Hoyt's "A Bunch of Keys," the entertainment at the Grand next Monday night, will be all that the lovers of music and good dancing could expect. The "Bunch of Keys" is well known and always welcome. Manager Bothner has secured the pick and choice of the farce comedy favorites, and has made many notable changes to make it perfect, artistically and in its appointments, and its individual cleverness is well known to the play-going fraternity and will repeat its former success. Among the special features introduced this season will be the Acme Quartette.

Manager Norris, of the Grand, announces an engagement here Saturday night which is spoken of by the press as one of the best musical productions this season. It bears the unique title of "A Handsome Cabman," a great many of its witty sayings having been taken by the authors from that famous novel, "The Doings of a Hansom Cabby." However, don't imagine that "A Handsome Cabman" contains nothing else. An evening's entertainment is assured because it is brim full of bright, catchy music.

Following this delightful diversion the host in a few choice and distinctly appropriate words addressed his guests. He said: "Sixty-two years ago on the ninth day of February, between 11 and 12 o'clock at night, I was ushered onto this earth. That is something for which I am not responsible, but I am really glad I did come. And I will be sorry when I have to go. Though I realize that my milestones are growing shorter, I don't feel like an old man. I acknowledge that I don't feel as young and sprightly as I did once, but nevertheless I am young yet and my head and heart as young as they ever were. I was born in the town of Talmage, Summit county, among the blue stocking Yankees, and as my father was a real Irishman and my mother of a Pennsylvania Dutch family, I can truly say that I am an Irish-bred Yankee.

"You gentlemen before me are the men of the age, the shining lights of the next decade. I wanted you here tonight, not for a purpose, but to look into your faces. I have associated for 15 years with you, and I wanted to have you enjoy yourselves with me. I am now, always have been and always will be your friend. I have ever tried as justice of the peace to be just, fair and right with every man and I have never rendered a decision, that J. N. Rose did not believe was conscientiously right. I don't wish to boast, but no decision of mine was ever reversed by the next higher court. (Applause.) I have tried to be sincere and honest, and I would rather be honest than a multi-millionaire." (Applause.)

The 'squire stated further that he had been in the city long enough to witness the start of nearly every attorney now practicing here except only J. H. Brookes, J. J. Burinton, H. R. Hill and A. H. Clark. The reminiscences of the 'squire were greatly enjoyed, many funny anecdotes with the members of the bar as the central figures being cited.

The evening was then turned over to the guests and for several hours, under the prompting of Toastmaster J. J. Burinton, mirth and general good feeling prevailed. Mr. Burinton is a prince in the position assigned him and always led up to his call for a response in a manner bespeaking success for the follower. Every attorney present and a representative of each paper spoke briefly, but sincerely, and when all had finished the occasion was declared the best of the kind ever held in the Crocker City.

Those present were: H. R. Hill, J. J. Burinton, A. E. Bowdler, Robert Burners, Walter Cook, G. Y. Travis, R. G. Thompson, John Wallace, Frank Grosshans, Hollis E. Grosshans, George E. Davidson, W. K. Gaston, James McGarry, Erastus Marshall, W. B. Hill, J. M. McGarry, John McGarry, P. V. Mackall, William Hill, R. H. Perry, Harry Burgess, W. H. Spence, of Lisbon, Henry E. Bullock, Criss McConnell, L. H. Brush, Allen W. Fink, E. W. Bartlett, C. G. Byron and Horace W. Karr.

Others invited, but who could not be present, but who sent their regrets, were P. M. Smith and W. F. Lones, of Wellsville; J. H. Brookes and W. H. Voady, East Liverpool, and L. T. Farr, Rogers.

Slow Progress Being Made

Lisbon, February 11.—(Special.)—Slow progress is being made with the hearing of the appropriation case in which the Salem & Eastern Railway company is plaintiff against Salem property owners, now on in probate court, and it is doubtful if a verdict can be secured today. The 42-100 of an acre sought to be appropriated is a part of a three-acre tract owned by Richard Cole and fronts on the north side of West Main street in Salem. Four witnesses were examined yesterday afternoon, and placed estimates on the value of the property.

AT THE THEATER

Lyman Howe, the greatest and best

known moving picture exhibitor, will

present his new collection of views

from all parts of the world at the

Grand opera house on next Tuesday,

matinee and evening, under the ap-

ices of the hospital association. No

other similar show has a more endur-

ing record. He has made 18 semi-an-

nuual tours. Each one from the first

has been a great success and has in-

creased his popularity, because his

main endeavor has been to give the

people just what they want—only

high-class, up-to-date entertainment.

Mr. Howe personally tours Europe

each season to secure pictures from

all parts of the world and his collec-

tion this season surpasses anything

and everything of this kind ever seen

in America.

An inspiring spectacle, one of the

most beautiful pictures ever set on

any stage, is that entitled, "While Old

Glory Waves," presented by the Al. G.

Field Greater Minstrels. It is a wil-

derness of patriotic color and music,

and a stage picture that once seen will

never be forgotten. The set occurs in

the spectacle, "Minstrels' Tribute to

the Twentieth Century," a beautiful

stage picture and transformation scene

of entrancing beauty. The camp, the

review, are all shown, inter-

perspersed with original music, taking

songs, the finale ending with the big

picture, "While Old Glory Waves."

Hoyt's "A Bunch of Keys," the en-

tertainment at the Grand next Monday

night, will be all that the lovers of

The "Bunch of Keys" is well known

of the farce comedy favorites, and has

made many notable changes to make

it perfect, artistically and in its ap-

pointments, and its individual clever-

ness is well known to the play-going

fraternity and will repeat its former

success. Among the special features

introduced this season will be the

Acme Quartette.

Manager Norris, of the Grand, an-

nounces an engagement here Saturday

night which is spoken of by the press

as one of the best musical productions

this season. It bears the unique title

of "A Handsome Cabman," a great

many of its witty sayings having been

taken by the authors from that famous

novel, "The Doings of a Hansom Cab-

WELLSVILLE AND VICINITY

THE ORDINANCE PASSED BY COUNCIL

One Councilman Only Objected to the Appropriating Ordinance for \$27,867.

Councilman McDonald, at a meeting of the Wellsville council last night, voted against the passage of the appropriation ordinance in its amended form. His was the only voice against the measure, which was passed. It calls for an expenditure of \$27,867.69.

There was some discussion during the short session of council about the quality of the estimate furnished by the water works department. It was claimed that the estimate should have been made by the board of public service.

City Solicitor Boyd read the section of the code which he read at the session last week, in which the water works department is given charge of all new work that was under way at the time the new code became operative. It was here that Councilman McDonald objected to the passage of the ordinance. He contended that the board of public service has charge of the water works department, especially in the event of the handling of any funds.

The amended ordinance as passed follows: Council, \$227.50; clerk, \$225; mayor, \$150; auditor, \$467; treasurer, \$275; solicitor, \$375; tax commission, \$35; board of elections, \$795; legal advertising, \$22; judicial, \$300; court costs paid, \$200; contingent fund, \$700; poor relief, \$164.08; expense public safety, \$200; police department, \$2,752.41; police telegraph and telephone, \$1,380.35; health fund, \$592.11; service fund, \$687.95; water works, \$10,726; engineering, \$458.63; street paving, \$687.95; street repairing, \$273.29; sidewalks (ordered), \$66; street cleaning, \$343.97; light, \$3,210.45; sewers, \$392.40; parks, \$114.65; city hall, \$114.65; cemeteries, \$153.35.

The measure was passed under the suspension of the rules, on a motion of Councilman O'Grady.

City Auditor McGregor is at work on the new ordinance and will present it to Mayor Fogo for his signature probably this evening.

Mayor Fogo said: "I cannot say now whether I will sign the ordinance

or not. I have not seen it." It is believed he will sign.

ARCHITECTS ENGAGED

Who Will Give Advice as to the Construction of the New Cemetery Vault.

"Struthers & Hanna, architects of Pittsburg, have been engaged by the board of public service as consulting architects in the erection of the new receiving vault in Spring Hill cemetery." This announcement is made by President Stewart, of the service board.

Another set of plans for a vault have been submitted to the board by Mr. Archer, a marble dealer of Market street, Steubenville, which call for the erection of a vault from light sand stone.

The plans submitted by Rufus Rogers, which call for granite construction, have been forwarded to the consulting architects and it is expected that a detailed report will be received from the architects at the next session of the board.

According to the present plans of the board, bids will be asked for the construction of the vault next week. Struthers and Hanna, it is said, will receive a percentage for looking after the construction of the vault.

It is claimed that a vault cannot be erected that will answer the use that it might be put to for less than \$1,000. Should granite be used in the construction the vault would stand for ages, where if brick and stone were used it would be only a few years until repairs would have to be made to it, and then the city would be placed to an additional expense.

Many residents who have knowledge of granite construction claim that no other materials should be used in the new vault.

Chairman E. A. Garren, of the water works trustees, anticipates receiving word from the Duquesne Engineering & Construction company, of Pittsburg, tonight as to whether that concern proposes to go ahead with the construction of the new pumping station under the conditions originally specified.

The concern said it would begin no work on the plant unless assured that it would be given the second contract for the erecting of the main building. The city agreed to this, but the company, it is claimed, shows a disposition to quit work when the pump part is completed.

He was fined \$5 and costs. It is likely the railway company will reimburse the employee.

A MOTORMAN FINED

Charged With Rushing His Car Through a Funeral Procession And Causing Confusion.

Mayor Fogo has taken a decided stand against employees of the East Liverpool railway, especially motormen, who persist in violating an ordinance relating to the molesting of funeral processions.

Motorman Oscar Chevalier, it is alleged rushed his car through the procession at the funeral of Kenneth Davidson, as it was on its way to the cemetery last week, breaking the line, and scaring a number of horses. When the matter was reported to Mayor Fogo a warrant was issued by him, signed by Chief Houser, for the arrest of Chevalier. He was notified to appear at city hall and this was done yesterday.

He was fined \$5 and costs. It is likely the railway company will reimburse the employee.

A short stop will be made in that city, which will be followed later by a tour of the country about Ogden, Utah. San Francisco will be the next stop. Southern California will be toured and the return trip will be made by the southern route, through Texas, then north.

THE GUARANTEED CATARRH CURE

Will Reed Will Return Money If Hyomei Fails.

Hyomei has made so many cures of the most chronic and deep seated cases of catarrh, that Will Reed considers it a specific in this disease.

He extends an invitation to all catarrh sufferers to call at his store and purchase a Hyomei outfit with the distinct understanding that it will be absolutely free unless it effects a cure.

The chief reason for the unusual success of Hyomei in the treatment of catarrhal troubles and other diseases of the air passages, is the fact that it cures by a new principle, impregnating the air you breathe with healing and germ-killing balsams. On this account it reaches the seat of the disease in a way impossible to pills, drugs or other stomach dosing.

Many of Will Reed's customers who have suffered with catarrh since childhood have been cured completely by this scientific remedy.

The complete Hyomei outfit costs \$1, and consists of an inhaler that can be carried in the purse or pocket, a medicine dropper and a bottle of Hyomei. Extra bottles can be obtained for 50c, making it a most economical remedy for the cure of catarrh.

Do not suffer longer with catarrhal disorders, but get a Hyomei outfit from Will Reed under his personal guarantee to return the money if it fails. If it cures, the treatment is not expensive, while if it fails, Mr. Reed will refund your money and it costs you absolutely nothing.

SOUTH SIDE

WAITMAN ALLISON SERIOUSLY INJURED

Rural Mail Carrier at Corapolis Meets With a Very Serious Accident.

A great deal of anxiety is expressed in Chester by relatives and friends of Waitman Allison, formerly of here, whose serious injury at Corapolis was reported last evening by his brother, Ellsworth, who had visited him at his home. Mr. Allison is employed as a rural mail carrier out of Corapolis and in some manner unknown he fell from his wagon and was seriously injured about the head.

The man lay by the roadside for several hours before he was discovered, and the exposure is said to have made his condition serious. No report of the condition of the man was received today and it is hoped that the first report was exaggerated. Ellsworth, Joseph, Sherman and Walter Allison, of Chester, are brothers of the injured man, and Mrs. Lee Conant is a sister. He has a wife and one son.

A Change of Places.

The place of holding the eucharist and flinch party under the auspices of the ladies of the Sacred Heart church of Chester has been changed from Rose's hall to the parlors of the Chester hotel. The party will be held on February 15 and the change was made necessary owing to the large number of tickets that have already been disposed of. It is stated that already over 200 tickets for the affair have been sold.

Entire Family Sick.

The family of William Maiden are certainly having their share of illness. The mother and several of the other members of the family are down with the measles and Mrs. Maiden is said to be in a very bad condition owing to her age. Mr. Maiden has also been confined to the house for several days, but managed to get out today for a short time.

Interest Increasing.

Increased interest is reported in the revival meeting being conducted in the United Presbyterian church by Rev. J. M. Streeter and A. Linkletter. There was a large attendance at the meeting last evening and the sermon of Rev. Streeter was listened to with great attention. The subject of the sermon for this evening is "Saving Faith."

Cook Getting Well.

Laughlin Cook, of East Liverpool, who was injured in the falling of an arch in the new sewer being constructed at the park, was able to leave the house today for the first time since the accident but he will not be able to resume his work for some time to come.

CHESTER NOTES.

Charles Stevens and daughter, of Sheklerville, are both on the sick list. James Lelew has gone to St. Louis, where he has accepted a position.

A baby girl has been born to Mr. and Mrs. Thompson, of Phoenix avenue. John Welis was called to the East End, East Liverpool, on business today.

Rev. M. Blackburn, of the M. E. church, is conducting services at the Grandview school house.

Secretary Pugh, of the school board, has issued the regular monthly checks to the teachers of the district.

Mrs. Smiley Stewart, of near Asbury chapel, well known in Chester, is reported as being seriously ill at her home.

William G. Jackson, who has been confined to his home on River avenue for the past five weeks with a severe attack of catarrh of the stomach, is able to be out again.

He Died Cured. There used to live near Dunbarton, in New Hampshire, a physician who had a reputation for pigheaded stupidity.

A good story about this physician used to circulate in the town. According to it, an old woman stopped his gig one day and pointed toward a house with crape on the door.

"So, doctor," she said maliciously. "Mr. Brown is dead, for all you promised to cure him, eh?"

The doctor looked at her in his pompous, stupid way.

"You're mistaken," he said. "You didn't follow the progress of the case. It's true Mr. Brown is dead, but he died cured!"

Dinner Time.

Englishmen in Queen Elizabeth's time dined at 11 a. m., and Shakespeare rang up the curtain at the Globe theater at 1 p. m., the performance ending between 5 and 6 o'clock. By the time of Charles II. dinner had advanced to 1 o'clock and the play began at 3 p. m., as Pepys records. A century later Horace Walpole complained of dinner being as late as 4 o'clock and evening not beginning until 6 o'clock. Up to the middle of the last century theaters opened at 6.30, dinner being proportionately earlier.

A Forgiving Spirit.

In his reminiscences General Gordon tells a characteristic anecdote of an eccentric southern divine, the Rev. Robert J. Breckinridge, who was one of the most eloquent and fervid not to say bitter advocates of the Union cause. His trenchant pen and lashing tongue spared neither blood relatives nor ministers nor members of the church, not even those of the same faith with himself, provided he regarded them as untrue to the Union. On his deathbed his family and some of his church members were gathered around him. They were most anxious that he should be reconciled to all men and especially to a southern sympathizer of his own church, Dr. Stuart Robinson of Kentucky, before he died, and they asked him, "Brother Breckinridge, have you forgiven all your enemies?" "Oh, yes; certainly I have," "Well, Brother Breckinridge, have you forgiven our brother, Dr. Stuart Robinson?" "Certainly I have. Didn't I just tell you that I had forgiven all my enemies?" "But, Brother Breckinridge, when you meet Brother Stuart Robinson in heaven do you feel that you can greet him as all the redeemed ought to greet one another?" "Don't bother me with such questions. Stuart Robinson will never get there!"

Box and Its Meanings.

The word "box" has a great many different meanings. Here are some of its uses as a noun substantive: First, a case of any size or material, akin to pyx, from pyxis, the box tree; second, the driver's seat on a carriage, which often has a lid covering a receptacle for small parcels; third, a present, especially a gift at Christmas time; fourth, inclosed seats in a theater or in a court of justice; fifth, a box drain; sixth, a snug private house, as a shooting box; seventh, a cylindrical hollow iron in wheels, in which the axle runs; eighth, a trough for cutting miter in carpentry; ninth, the space between the backboard and sternpost of a boat; tenth, an awkward position—e. g., "In the wrong box;" eleventh, the box tree; twelfth, the box iron of a laundress. Box is used also as a verb (third tense), to fight with fists or gloves; fourteenth, to go over the points of the compass in order, describing its divisions; fifteenth, to strike with open hand upon the ear; sixteenth, to cause a vessel to turn on her keel, to box haul. Other uses also are consequent upon these.

Numerous Engineers Are Now Working on the Cleveland & Pittsburg Railroad.

Because of heavy freight traffic on the main line and river division of the Cleveland & Pittsburg many engineers from other lines are now working on the road. The company has drawn from the Erie and Ashtabula and Fort Wayne divisions quite a number of engineers, all of whom are now working in the freight service.

Never before have so many outside engineers been employed on the road as at the present. Old Cleveland & Pittsburg engineers in many instances are confined to their homes on account of illness, and yesterday three others left for an extensive western trip.

Receipts from City Scales.

City Auditor McGregor yesterday completed the auditing of the books that for the past 10 months have been in the keeping of Janitor Dallas Pittenger of city hall. Since March last a total of \$18.40 has been collected by the city for the use of the scales. The accounts were found correct and extend from March 3, 1903, to December 20, 1903. Since that date the scales have not been in use, as they have been frozen and no attempt has been made to use them.

Fined on an Old Charge.

Levi Cobbs, colored, was fined \$10 and costs by Mayor Fogo on an old charge of fighting. Cobbs was recently released from custody at Lisbon, and after returning to Wellsville became involved in a fight. This was last January. He left for Steubenville and when he returned to Wellsville yesterday he was caught by Chief Houser, who took him before the mayor.

Flinch Club Meeting.

The Tuesday Night Flinch club held a pleasant session at the home of Mrs. E. Martin, Broadway, Tuesday evening. The prize of the evening was awarded to Mrs. Hammond Mick. Following the game refreshments were served by Mrs. Martin. The meeting next Tuesday evening will be held at the home of Mrs. Wallace L. Fogo, of Broadway.

Promotion of Eckles.

Advices have been received in Wellsville of the promotion by Supt. T. B. Hamilton, of the C. & P. road, of A. B. Eckles, an engineer of the Erie & Ashtabula division, to be assistant road foreman of engines of the C. & P., with headquarters in Cleveland.

THE GUARANTEED CATARRH CURE

Will Reed Will Return Money If Hyomei Fails.

Hyomei has made so many cures of the most chronic and deep seated cases of catarrh, that Will Reed considers it a specific in this disease.

He extends an invitation to all catarrh sufferers to call at his store and purchase a Hyomei outfit with the distinct understanding that it will be absolutely free unless it effects a cure.

The chief reason for the unusual success of Hyomei in the treatment of catarrhal troubles and other diseases of the air passages, is the fact that it cures by a new principle, impregnating the air you breathe with healing and germ-killing balsams. On this account it reaches the seat of the disease in a way impossible to pills, drugs or other stomach dosing.

Many of Will Reed's customers who have suffered with catarrh since childhood have been cured completely by this scientific remedy.

The complete Hyomei outfit costs \$1, and consists of an inhaler that can be carried in the purse or pocket, a medicine dropper and a bottle of Hyomei. Extra bottles can be obtained for 50c, making it a most economical remedy for the cure of catarrh.

Do not suffer longer with catarrhal disorders, but get a Hyomei outfit from Will Reed under his personal guarantee to return the money if it fails. If it cures, the treatment is not expensive, while if it fails, Mr. Reed will refund your money and it costs you absolutely nothing.

AN INVESTIGATION

Is in Progress of the Improvements Lately Made at the Wellsville Postoffice.

Assistant Superintendent Norris, of the salary and allowance department of Washington, is here today investigating improvements recently completed at the Wellsville postoffice. He expects to sign a long term lease for the room now occupied at an annual rental of \$700.

WELLSVILLE SHORT STORIES.

C. J. Stevenson left today for Pittsburg on business.

Dr. Patterson, Augusta, was a guest yesterday of Mr. and Mrs. L. Heiner, of Eighteenth street.

The colored Masons of East Liverpool and Wellsville will give a big dance in the Wellsville city hall tonight.

Claim Agent Apple, of the C. & P. road, left for Cleveland this morning. One purpose is to ascertain why the new books ordered for the Wellsville reading room have not been shipped.

Because of the ice in the river, four boats, with immense tows of coal, tied to the Virginia shore, opposite Walker, during the night. At day break this morning all the boats left for the south.

J. G. Moore, who succeeds Thomas J. Rogers as chief train dispatcher of the Cleveland & Pittsburg railroad with offices at Wellsville, arrived here yesterday to become acquainted with the local situation. It is expected that Mr. Moore will move his family to Wellsville at an early date.

WAITMAN ALLISON SERIOUSLY INJURED

Rural Mail Carrier at Corapolis Meets With a Very Serious Accident.

A great deal of anxiety is expressed in Chester by relatives and friends of Waitman Allison, formerly of here, whose serious injury at Corapolis was reported last evening by his brother, Ellsworth, who had visited him at his home. Mr. Allison is employed as a rural mail carrier out of Corapolis and in some manner unknown he fell from his wagon and was seriously injured about the head.

The man lay by the roadside for several hours before he was discovered, and the exposure is said to have made his condition serious. No report of the condition of the man was received today and it is hoped that the first report was exaggerated. Ellsworth, Joseph, Sherman and Walter Allison, of Chester, are brothers of the injured man, and Mrs. Lee Conant is a sister. He has a wife and one son.

A Change of Places.

The place of holding the eucharist and flinch party under the auspices of the ladies of the Sacred Heart church of Chester has been changed from Rose's hall to the parlors of the Chester hotel. The party will be held on February 15 and the change was made necessary owing to the large number of tickets that have already been disposed of. It is stated that already over 200 tickets for the affair have been sold.

Entire Family Sick.

The family of William Maiden are certainly having their share of illness. The mother and several of the other members of the family are down with the measles and Mrs. Maiden is said to be in a very bad condition owing to her age. Mr. Maiden has also been confined to the house for several days, but managed to get out today for a short time.

Interest Increasing.

Increased interest is reported in the revival meeting being conducted in the United Presbyterian church by Rev. J. M. Streeter and A. Linkletter. There was a large attendance at the meeting last evening and the sermon of Rev. Streeter was listened to with great attention. The subject of the sermon to this evening is "Saving Faith."

Cook Getting Well.

Laughlin Cook, of East Liverpool, who was injured in the falling of an arch in the new sewer being constructed at the park, was able to leave the house today for the first time since the accident but he will not be able to resume his work for some time to come.

CHESTER NOTES.

Charles Stevens and daughter, of Sheekerville, are both on the sick list. James Lechew has gone to St. Louis, where he has accepted a position.

A baby girl has been born to Mr. and Mrs. Thompson, of Phoenix avenue.

John Wells was called to the East End, East Liverpool, on business today.

Rev. M. Blackburn, of the M. E. church, is conducting services at the Grandview school house.

Secretary Pugh, of the school board, has issued the regular monthly checks to the teachers of the district.

Mrs. Smiley Stewart, of near Asbury chapel, well known in Chester, is reported as being seriously ill at her home.

William G. Jackson, who has been confined to his home on River avenue for the past five weeks with a severe attack of catarrh of the stomach, is able to be out again.

He Died Cured.

There used to live near Dunbarton, in New Hampshire, a physician who had a reputation for pigheaded stupidity.

A good story about this physician used to circulate in the town. According to it, an old woman stopped his gig one day and pointed toward a house with crape on the door.

"So, doctor," she said maliciously, "Mr. Brown is dead, for all you promised to cure him, eh?"

The doctor looked at her in his pompous, stupid way. "You're mistaken," he said. "You didn't follow the progress of the case. It's true Mr. Brown is dead, but he died cured."

Dinner Time.

Englishmen in Queen Elizabeth's time dined at 11 a. m., and Shakespeare rang up the curtain at the Globe theater at 1 p. m., the performance ending between 5 and 6 o'clock. By the time of Charles II. dinner had advanced to 1 o'clock and the play began at 3 p. m., as Pepys records. A century later Horace Walpole complained of dinner being as late as 4 o'clock and evening not beginning until 6 o'clock. Up to the middle of the last century theaters opened at 6.30, dinner being proportionately earlier.

A Forgiving Spirit.

In his reminiscences General Gordon tells a characteristic anecdote of an eccentric southern divine, the Rev. Robert J. Breckinridge, who was one of the most eloquent and fervid not to say bitter advocates of the Union cause. His trenchant pen and lashing tongue spared neither blood relatives nor ministers nor members of the church, not even those of the same faith with himself, provided he regarded them as untrue to the Union. On his deathbed his family and some of his church members were gathered around him. They were most anxious that he should be reconciled to all men and especially to a southern sympathizer of his own church, Dr. Stuart Robinson of Kentucky, before he died, and they asked him, "Brother Breckinridge, have you forgiven all your enemies?" "Oh, yes; certainly I have," "Well, Brother Breckinridge, have you forgiven our brother, Dr. Stuart Robinson?" "Certainly I have. Didn't I just tell you that I had forgiven all my enemies?" "But, Brother Breckinridge, when you meet Brother Stuart Robinson in heaven do you feel that you can greet him as all the redeemed ought to greet one another?" "Don't bother me with such questions. Stuart Robinson will never get there!"

Box and Its Meanings.

The word "box" has a great many different meanings. Here are some of its uses as a noun substantive: First, a case of any size or material, akin to pyx, from pyxis, the box tree; second, the driver's seat on a carriage, which often has a lid covering a receptacle for small parcels; third, a present, especially a gift at Christmas time; fourth, inclosed seats in a theater or in a court of justice; fifth, a box drain; sixth, a snug private house, as a shooting box; seventh, a cylindrical hollow iron in wheels, in which the axle runs; eighth, a trough for cutting miters in carpentry; ninth, the space between the backboard and sternpost of a boat; tenth, an awkward position—e. g., "in the wrong box"; eleventh, the box tree; twelfth, the box iron of a laundress. Box is used also as a verb (thirteenth), to fight with fists or gloves; fourteenth, to go over the points of the compass in order, describing its divisions; fifteenth, to strike with open hand upon the ear; sixteenth, to cause a vessel to turn on her keel, to box haul. Other uses also are consequent upon these.

FOR PROTECTION OF GAS USERS

Hon. E. W. Hill's Measure Very
Strict on Natural Gas
Companies.

METERS MUST BE TESTED

And Reach a Certain Standard or
There is a Severe Penalty for Their
Use—Cities May Provide Gas In-
spectors.

Columbus, February 11.—(Special.)—The natural gas bill which Hon. E. W. Hill, of East Liverpool, has introduced in the legislature, contains many strict provisions, as follows:

Section 1. That sections 3554, 3555, 3556, 3558, 3561 and 2484 of the Revised Statutes of Ohio be amended to read as follows:

Section 3554. No meter for the measurement of natural gas or artificial gas shall be set unless it is tested by a meter-prover, in the presence of the prospective consumer or his agent and sealed and stamped as provided in section 3556, and any company authorizing the setting of a meter, or allowing the same to be used by any consumer of gas, without being so sealed and stamped, and tested as aforesaid, shall forfeit and pay not less than \$25 nor more than \$100, to be recovered upon the complaint of any consumer, in the name of the state, before any court of competent jurisdiction.

Section 3555. There shall be provided, at the expense of the gas companies, doing business in this state, by the state sealer of weights and measures, at the Ohio State University, a standard measure of the cubic foot, and such other apparatus as in his judgment shall be necessary for the performance of his duties under this chapter.

Section 3556. Meters in use shall be tested on request of the consumer, in his presence, or in the presence of his agent, if desired, with a meter-prover tested and sealed as provided in section 3561, by an officer or servant of the company; if the meter be found to be correct, the party requesting the inspection shall pay a fee of 50 cents, and the expense of removing the same for the purpose of being tested, but such expense shall not be unreasonable or excessive, and the inspection or re-inspection shall be stamped on the meter; if proved incorrect, no fees or expense shall be paid by the consumer, and the company shall furnish a new meter without any charge to the consumer; and no gas company shall have the right to charge rent for meters.

Section 3558. Any officer or servant of a gas company, duly authorized in writing by the president, treasurer, agent or secretary of the company, may, at any reasonable time, enter any premises supplied with gas by such company, for the purpose of examining or removing the meters, and of ascertaining the quantity of gas consumed or supplied; and if any person, at any time, directly or indirectly, prevents or hinders any such officer or servant from so entering any such premises, or from making such examination or removal, such officer or servant may make complaint under oath, to any justice of the peace of the county wherein such premises are situated, stating the facts in the case, so far as he has knowledge thereof, and the justice may thereupon issue a warrant, directed to any constable of the city or town where such gas is supplied, commanding him to take sufficient aid, and repair to such premises, accompanied by such officer or servant, who shall examine such meters and ascertain the quantity of gas consumed or supplied therein, and, if required, remove any meters belonging to the company.

Section 2561. All gas companies supplying the public with natural or artificial gas which are not supplied with such apparatus, shall forthwith provide for their use a meter-prover, the holder of which shall contain not less than five feet, the same to be tested, stamped and sealed by the state sealer of weights and measures, at the Ohio State University, before being used; and a photometer for the comparison of the lights of gases and candles by means of a disk, for use of artificial gas companies.

Section 2484. The council of any corporation in which natural or artificial gas is sold and delivered, may provide, by ordinance, for the appointment of an officer, to be known as inspector of gas, whose duty it shall be to inspect all gas and gas meters, and certify the correctness of all bills against consumers of gas, make such tests, and perform such other duties as may be prescribed by ordinance; and the council shall fix his compensation. The council may also provide for the inspection and testing of meters used for measuring electric current for electric light, power or other purposes, furnished by any individual or company within the corporation, and

Section 2. That section 3557 of the Revised Statutes of Ohio be supplemented by the enactment of supplemental statutes 3557a, 3557b and 2557c, as follows:

Section 3557a. Gas produced by natural causes shall be deemed natural gas under the laws of this state; and the standard or unit of measure for the sale of natural gas shall be the cubic foot measured under such pressure as may have been agreed upon between the seller and purchaser.

Section 3557b. Any natural gas company doing business in this state shall, before rendering any bill of account for gas consumed, prepare and post in a conspicuous place within its principal place of doing business in the community where said gas is sold and delivered, a schedule showing the purity of the gas sold and delivered and charged in such bill or account expressed in per centum; and an average expressed in per centum of the purity of gas for the period of time covered by the said bill or account. The said schedule to be duly sworn to by an officer or servant of the company, having competent knowledge of the facts. Any such company that shall fail to post the schedule herein specified at the time designated, shall forfeit and pay not less than \$100 nor more than \$1,000, to be recovered upon the complaint of any such consumer in the name of the state of Ohio, before any court of competent jurisdiction.

Section 3557c. All bills or accounts for the consumption of gas supplied by a natural gas company in this state, shall show the number of cubic feet as registered by the meter used by the consumer; and the amount due computed at the rate agreed upon by such company and consumer; and in the event that the gas so delivered shall have been diluted in any manner whatsoever and made to produce less heat units per volume upon being consumed, than when it was produced naturally then such company shall deduct from the charge for gas consumed upon any such bill or account such an amount as will offset such dilution.

Section 3. That sections 3554, 3555, 3556, 3558, 3561a and 2484 of the Revised Statutes of Ohio be and the same are hereby repealed.

Section 4. This act shall take effect and be in force 30 days from and after its passage.

UNCLE SAM NEUTRAL

Upon Invitation of Russia United States Will Draft Declaration of Neutrality.

CREDIT DUE TO SECRETARY HAY

Asks the Co-Operation of Other Powers in Endeavor to Localize Seat of War—Japan and Russia Desire to Confine Hostilities to Themselves.

Washington, Feb. 11.—Russia invited of the United States a declaration of her neutrality in the Far Eastern war. Secretary Hay sent the draft of the declaration of our neutrality to the president for his signature. Having received enough favorable replies to insure the concurrent action of European powers in his endeavor "to localize within as small an area as possible the hostilities in the Far East and to insure over as much of China as possible her neutrality," Secretary Hay addressed notes to Russia and Japan, inviting their co-operation in this endeavor and announcing that the United States stood stalwartly for this principle. It was known in advance that both the combatant powers desired the localization of the war.

In the present period of the negotiations state department officials find it inexpedient to discuss the various steps which led up to the issuance of the note, but from a diplomat whose government, while entirely neutral, is conversant with the progress of events this statement was obtained:

Hay Took Bold Step.

"To Secretary Hay undoubtedly belongs the full credit for the initiation of this policy, which is the boldest step yet taken by any country for the preservation of the integrity of China. The Washington government, however, awaited a suggestion from another power before issuing the circular note. Germany called the attention of the United States to the desirability of limiting the hostilities to the two combatant powers. Among my conferees the belief is general that Germany acted with the knowledge of Russia, but of this I am not certain. In this connection it should be remembered that both Russia and Japan are most anxious to confine hostilities to themselves, and in this they undoubtedly have the support of my government and all the powers. It was impossible for Great Britain to make the suggestion and hope for its serious consideration by Russia. France would have been disposed to regard with suspicion any such proposition coming from Germany, and Japan would have hesitated to acquiesce in a like suggestion emanating from France. The United States was the only power that could take the initiative. This fact was called to the attention of the secretary during a call of the German ambassador on Monday morning last, shortly before Baron Stenberg left for New York.

Integrity of Chinese Empire.

"Not only, however, has the secretary suggested the limiting of the scene of hostilities, but he has improved the opportunity to make another step toward preserving China's integrity. Examination of his note will show no reference whatever to the integrity of China, but certainly the neutralization of that country must contribute powerfully to the preservation of China's integrity and the maintenance of its administrative control. The note is general in character, and therein lies its greatest strength. Germany was the first to respond favorably. In the case of France it was necessary for that government to assure itself that there was nothing in the suggestion to which Russia might take exception."

After addressing Germany, Great Britain and France, Secretary Hay sent the same note to the other powers signatory to the peace protocol of 1900, including Austria-Hungary, Italy, Netherlands, Belgium and Spain, and finally he addressed the combatants, Russia and Japan, inviting their co-operation in the support of the principle for which this government stood.

Mr. Jusserand, the French ambassador, had a long conference with Count Cassini, the Russian ambassador. The note of Secretary Hay was discussed, and in the personal opinion of these two diplomats its humanitarian purpose was approved. In diplomatic circles the feeling is strong that Russia will acquiesce in the suggestion both as to the limiting of hostilities and the neutralization of China when she has assured herself that there is no ulterior purpose involved.

Korea Hopelessly Involved.

On the authority of a high administration official it can be stated that this government has no intention of suggesting anything about Korea. It is recognized that Korea is the natural battleground and that it is useless even to discuss the neutralization of that country.

It was decided that the cruiser squadron of the Asiatic fleet with property could go as far north as Shanghai and orders to that effect have been sent. From there one of the vessels will be sent northward to Chemulpo, Korea, to maintain communication with the American legation at Seoul. Probably the vessels of the cruiser squadron will take turn about at this duty. It is possible that several naval attaches may be sent

to Manchuria. It has been suggested that a naval officer at Dally and one at Mukden or Antung could be of assistance to the consuls this government in sending there.

Admiral Uriu of the Japanese fleet was graduated from the naval academy at Annapolis in 1882.

Washington, Feb. 11.—Mr. Takahira, the Japanese minister here, has received advices from the Japanese foreign office regarding the naval engagement of Chemulpo similar to those made public by Mr. Hayashi, the Japanese minister in London. Mr. Takahira thinks it is especially important to note that according to these advices the first overt act of hostilities was committed by the Russian gunboat Korietz, which fired on the Japanese torpedo boats Monday evening. The president has decided to issue a proclamation of neutrality. It probably will make its appearance today. The proclamation is in stereotype form and simply recites and deprecates the existence of hostilities between Japan and Russia and enjoins upon citizens of the United States a strict regard and observance of the neutrality laws.

Horse Sense.

My maternal great-grandfather, Van der Meerschaut, had a little Cossack horse captured from the Russian invaders in 1814. The old gentleman was lame in one leg as the result of a hunting accident, but withal a good horseman when once in the saddle. When out on his trips in the country on business and coming home at night, he would frequently fall asleep in his commodious Cossack saddle. The horse would make a bee line for home at an easy but swift pace. Arriving there, it would rap at the front door with its foot until the watchman would open the porch and take the old gentleman out of the saddle. My grandmother told me this happened almost every week. Horse and master understood each other. Not being able to walk very well, he would hunt from horseback, the horse following the setters and coming to a standstill when one of them was on a point, the old gentleman guiding him entirely by pressure of the knees and voice and having both hands free for his fowling piece. The horse died of old age on the place, as most of our servants. Peace to his ashes!—Forest and Stream.

ARE YOU SATURATED

With Catarrh? \$10,000 Awaits
Any One Proving That Blood
Wine Will Not Do as Advertised.

Catarrh is a disease of the blood. Even if it only shows itself in the shape of nasal or head catarrh, still it is most likely all over you. It may attack you somewhere else—in the stomach, bowels, bladder, or kidneys. It may work down into your lungs—then you will have consumption. If it appears as an ear disease, you'll be deaf. Suppose your very brain is attacked and you have softening of the brain, or meningitis (both are fatal). This probability is always present until you cleanse your blood of the foul catarrhal poison.

Read our letter from Mrs. Annie Krehbuhl of 424 F street, Louisville: "For fifteen years I suffered with catarrh, which led to a stomach trouble. I grew worse and worse, and could hardly walk across the room. As I had taken all kinds of medicines with no results I had almost given up hope. When 'Blood Wine' commenced to advertise in Louisville I sent for a sample bottle, and later purchased three more. I have now finished my third bottle, and can truthfully say that my catarrh has wholly left me, and I can walk around without getting tired. My strength is returning and I feel like a new person. I will say to all sufferers with catarrh that 'Blood Wine' is the medicine to take if they want to be cured."

Catarrh is the same in you as in any one else, and amenable to the same treatment. Blood Wine cures catarrh wherever it exists, and it will cure you. For Constitution ask for our Liver Pills. 100 for 50 cents.

PAINE'S CERYLERY COMPOUND

When Nerves Burned Out By Strain of Toil and Care

It Gave New Nerve Force

When the pace of modern life has burned up all the nerve force IT BURNS UP THE NERVES THEMSELVES unless new force is supplied.

This is a scientific fact. Let it throw its light upon these letters, written by men and women in all walks of life, as you read how Paine's Cerylery Compound saved and helped them when nervous illness burdened life and utter nervous prostration threatened.

"It Has Been Worth a Thousand Dollars to Me."

By Miss Florence Worden.

"Paine's Cerylery Compound has been worth a thousand dollars to me. I would certainly not take that sum and give back the benefit I have received from your remedy."

Last spring the strain of my professional duties left me a nervous wreck. I went home, and for weeks was nursed by my mother as an absolute invalid. My digestion was very weak, and I suffered agonies from neuralgia. Our doctor said it was all due to my weakened nerves, but he was not able to make me any better.

A girl friend who heard of my illness sent me a bottle of Paine's Cerylery Compound, with such a cheerful, hopeful letter, telling what it had done for her, that I was encouraged to give it a serious trial.

I took four bottles, and by the end of summer I was well—absolutely well. My neuralgia was gone, and it has never returned. "And I can eat any kind of food without fear."

"Not since I was a child have I felt such buoyant health and spirits. Our doctor saw me before I returned to the city and he was astonished."

"I am happy to send you this new photograph as a proof of the benefit I have received from Paine's Cerylery Compound."

Women Suffer No More.

Philadelphia, Pa., Sept. 25, 1903.—I had sick headaches and was so run down that I often felt that life was not worth living. I had awful pains in my head and could not sleep at night. A friend told me about Paine's Cerylery Compound. I thought I would try it, and I had not taken half of the first bottle before I obtained relief, and I began to get well. I continued to take your invaluable remedy, and it was not long

before I was cured. I feel that I would not be alive today but for Paine's Cerylery Compound.

MISS CLARA FOWLER, 1306 N. 11th St.

To discouraged women Paine's Cerylery Compound gives back blessed health and joy of life. It positively cures Heart Trouble, Palpitation, Neuralgia, Indigestion, Dizziness, Weakness and Insomnia. It restores lost strength. It purifies the blood, and is a certain cure for bad or muddy complexion. In a word, Paine's Cerylery Compound

gives new life to women who are ailing and despondent.

FOR PROTECTION OF GAS USERS

Hon. E. W. Hill's Measure Very Strict on Natural Gas Companies.

METERS MUST BE TESTED

And Reach a Certain Standard or There Is a Severe Penalty for Their Use—Cities May Provide Gas Inspectors.

Columbus, February 11.—(Special.)—The natural gas bill which Hon. E. W. Hill, of East Liverpool, has introduced in the legislature, contains many strict provisions, as follows:

Section 1. That sections 3554, 3555, 3556, 3558, 3561 and 2484 of the Revised Statutes of Ohio be amended to read as follows:

Section 3554. No meter for the measurement of natural gas or artificial gas shall be set unless it is tested by a meter-prover, in the presence of the prospective consumer or his agent and sealed and stamped as provided in section 3556, and any company authorizing the setting of a meter, or allowing the same to be used by any consumer of gas, without being so sealed and stamped, and tested as aforesaid, shall forfeit and pay not less than \$25 nor more than \$100, to be recovered upon the complaint of any consumer, in the name of the state, before any court of competent jurisdiction.

Section 3555. There shall be provided, at the expense of the gas companies, doing business in this state, by the state sealer of weights and measures, at the Ohio State University, a standard measure of the cubic foot, and such other apparatus as in his judgment shall be necessary for the performance of his duties under this chapter.

Section 3556. Meters in use shall be tested on request of the consumer, in his presence, or in the presence of his agent, if desired, with a meter-prover tested and sealed as provided in section 3561, by an officer or servant of the company; if the meter be found to be correct, the party requesting the inspection shall pay a fee of 50 cents, and the expense of removing the same for the purpose of being tested, but such expense shall not be unreasonable or excessive, and the inspection or re-inspection shall be stamped on the meter; if proved incorrect, no fees or expense shall be paid by the consumer, and the company shall furnish a new meter without any charge to the consumer; and no gas company shall have the right to charge rent for meters.

Section 3558. Any officer or servant of a gas company, duly authorized in writing by the president, treasurer, agent or secretary of the company, may, at any reasonable time, enter any premises supplied with gas by such company, for the purpose of examining or removing the meters, and of ascertaining the quantity of gas consumed or supplied; and if any person, at any time, directly or indirectly, prevents or hinders any such officer or servant from so entering any such premises, or from making such examination or removal, such officer or servant may make complaint under oath, to any justice of the peace of the county wherein such premises are situated, stating the facts in the case, so far as he has knowledge thereof, and the justice may thereupon issue a warrant, directed to any constable of the city or town where such gas is supplied, commanding him to take sufficient aid, and repair to such premises, accompanied by such officer or servant, who shall examine such meters and ascertain the quantity of gas consumed or supplied therein, and, if required, remove any meters belonging to the company.

Section 2484. All gas companies supplying the public with natural or artificial gas which are not supplied with such apparatus, shall forthwith provide for their use a meter-prover, the holder of which shall contain not less than five feet, the same to be tested, stamped and sealed by the state sealer of weights and measures, at the Ohio State University, before being used; and a photometer for the comparison of the lights of gases and candles by means of a disk, for use of artificial gas companies.

Section 2484. The council of any corporation in which natural or artificial gas is sold and delivered, may provide, by ordinance, for the appointment of an officer, to be known as inspector of gas, whose duty it shall be to inspect all gas and gas meters, and certify the correctness of all bills against consumers of gas, make such tests, and perform such other duties as may be prescribed by ordinance; and the council shall fix his compensation. The council may also provide for the inspection and testing of meters used for measuring electric current for electric light, power or other purposes, furnished by any individual or company within the corporation, and

Sore Throat

Sore throat affections should never be neglected. Sore throat leads to Quinsy and Diphtheria. It is of vital importance to have a remedy at hand in the early stages of trouble of this nature. Many are the deaths that have resulted from a neglected Sore Throat.

Hamlin's Wizard Oil
CURES THIS DISEASE QUICKLY AND EFFECTIVELY.
C. A. Bryant, of Annapolis City, Md., writes: Last summer I suffered constantly with Sore Throat and had the best doctors I could get, but they gave me no relief. The first application of Hamlin's Wizard Oil gave me relief and by using it a few days I was entirely cured. A bottle of Hamlin's Wizard Oil is worth its weight in gold to any person.

Henry Wade, of Washington, La., writes, Sept. 4, 1900: My wife suffered with Sore Throat for a year, and though she desired and doctoring nothing seemed to help her. I procured a bottle of Hamlin's Wizard Oil and it has done more good than anything in the world.

There is only one Wizard Oil—Hamlin's—name blown in the bottle. Signature of Hamlin's on wrapper. Take no substitute. 50c. and \$1.00.

may prescribe a suitable charge for such inspection and testing, and the manner of collecting the same.

Section 2. That section 3557 of the Revised Statutes of Ohio be supplemented by the enactment of supplemental statutes 3557a, 3557b and 3557c, as follows:

Section 3557a. Gas produced by natural causes shall be deemed natural gas under the laws of this state; and the standard or unit of measure for the sale of natural gas shall be the cubic foot measured under such pressure as may have been agreed upon between the seller and purchaser.

Section 3557b. Any natural gas company doing business in this state shall, before rendering any bill of account for gas consumed, prepare and post in a conspicuous place within its principal place of doing business in the community where said gas is sold and delivered, a schedule showing the purity of the gas sold and delivered and charged in such bill or account expressed in per centum; and an average expressed in per centum of the purity of gas for the period of time covered by the said bill or account. The said schedule to be duly sworn to by an officer or servant of the company, having competent knowledge of the facts. Any such company that shall fail to post the schedule herein specified at the time designated, shall forfeit and pay not less than \$100 nor more than \$1,000, to be recovered upon the complaint of any such consumer in the name of the state of Ohio, before any court of competent jurisdiction.

Section 3557c. All bills or accounts for the consumption of gas supplied by a natural gas company in this state, shall show the number of cubic feet as registered by the meter used by the consumer; and the amount due computed at the rate agreed upon by such company and consumer; and in the event that the gas so delivered shall have been diffused in any manner whatsoever and made to produce less heat units per volume upon being consumed, than when it was produced naturally then such company shall deduct from the charge for gas consumed upon any such bill or account such an amount as will offset such dilution.

Section 3. That sections 3554, 3555, 3556, 3558, 3561 and 2484 of the Revised Statutes of Ohio be and the same are hereby repealed.

Section 4. This act shall take effect and be in force 30 days from and after its passage.

UNCLE SAM NEUTRAL

Upon Invitation of Russia United States Will Draft Declaration of Neutrality.

CREDIT DUE TO SECRETARY HAY

Asks the Co-Operation of Other Powers in Endeavor to Localize Seat of War—Japan and Russia Desire to Confine Hostilities to Themselves.

Washington, Feb. 11.—Russia invited of the United States a declaration of her neutrality in the Far Eastern war. Secretary Hay sent the draft of the declaration of our neutrality to the president for his signature. Having received enough favorable replies to insure the concurrent action of European powers in his endeavor to localize within as small an area as possible the hostilities in the Far East and to insure over as much of China as possible her neutrality. Secretary Hay addressed notes to Russia and Japan, inviting their co-operation in this endeavor and announcing that the United States stood stalwartly for this principle. It was known in advance that both the combatant powers desired the localization of the war.

In the present period of the negotiations state department officials find it inexpedient to discuss the various steps which led up to the issuance of the note, but from a diplomat whose government, while entirely neutral, is conversant with the progress of events this statement was obtained:

Hay Took Bold Step.

"To Secretary Hay undoubtedly belongs the full credit for the initiation of this policy, which is the boldest step yet taken by any country for the preservation of the integrity of China. The Washington government, however, awaited a suggestion from another power before issuing the circular note. Germany called the attention of the United States to the desirability of limiting the hostilities to the two combatant powers. Among my conferees the belief is general that Germany acted with the knowledge of Russia, but of this I am not certain. In this connection it should be remembered that both Russia and Japan are most anxious to confine hostilities to themselves, and in this they undoubtedly have the support of my government and all the powers. It was impossible for Great Britain to make the suggestion and hope for its serious consideration by Russia. France would have been disposed to regard with suspicion any such proposition coming from Germany, and Japan would have hesitated to acquiesce in a like suggestion emanating from France. The United States was the only power that could take the initiative. This fact was called to the attention of the secretary during a call of the German ambassador on Monday morning last, shortly before Baron Sternburg left for New York.

Integrity of Chinese Empire.

"Not only, however, has the secretary suggested the limiting of the scene of hostilities, but he has improved the opportunity to make another step toward preserving China's integrity. Examination of his note will show no reference whatever to the integrity of China, but certainly the neutralization of that country must contribute powerfully to the preservation of China's integrity and the maintenance of its administrative control. The note is general in character, and therein lies its greatest strength. Germany was the first to respond favorably. In the case of France it was necessary for that government to assure itself that there was nothing in the suggestion to which Russia might take exception."

After addressing Germany, Great Britain and France, Secretary Hay sent the same note to the other powers signatory to the peace protocol of 1900, including Austria-Hungary, Italy, Netherlands, Belgium and Spain, and finally he addressed the combatants, Russia and Japan, inviting their co-operation in the support of the principle for which this government stood.

Mr. Jusseland, the French ambassador, had a long conference with Count Cassini, the Russian ambassador. The note of Secretary Hay was discussed, and in the personal opinion of these two diplomats its humanitarian purpose was approved. In diplomatic circles the feeling is strong that Russia will acquiesce in the suggestion both as to the limiting of hostilities and the neutralization of China when she has assured herself that there is no ulterior purpose involved.

Korea Hopelessly Involved.

On the authority of a high administration official it can be stated that this government has no intention of suggesting anything about Korea. It is recognized that Korea is the natural battleground and that it is useless even to discuss the neutralization of that country.

It was decided that the cruiser squadron of the Asiatic fleet with propriety could go as far north as Shanghai and orders to that effect have been sent. From there one of the vessels will be sent northward to Chemulpo, Korea, to maintain communication with the American legation at Seoul. Probably the vessels of the cruiser squadron will take turn about at this duty. It is possible that several naval attaches may be sent

to Manchuria. It has been suggested that a naval officer at Dally and one at Mukden or Antung could be of assistance to the consuls this government in sending there.

Admiral Uriu of the Japanese fleet was graduated from the naval academy at Annapolis in 1882.

Washington, Feb. 11.—Mr. Takahira, the Japanese minister here, has received advice from the Japanese foreign office regarding the naval engagement of Chemulpo similar to those made public by Mr. Hayashi, the Japanese minister in London. Mr. Takahira thinks it is especially important to note that according to these advice the first overt act of hostilities was committed by the Russian gunboat Korietz, which fired on the Japanese torpedo boats Monday evening.

The president has decided to issue a proclamation of neutrality. It probably will make its appearance today. The proclamation is in stereotyped form and simply recites and deprecates the existence of hostilities between Japan and Russia and enjoins upon citizens of the United States a strict regard and observance of the neutrality laws.

Horse Sense.

My maternal great-grandfather, Van der Meerhout, had a little Cossack horse captured from the Russian invaders in 1814. The old gentleman was lame in one leg as the result of a hunting accident, but with a good horseman when once in the saddle. When out on his trips in the country on business and coming home at night, he would frequently fall asleep in his commodious Cossack saddle. The horse would make a bee line for home at an easy but swift pace. Arriving there, it would rap at the front door with its foot until the watchman would open the porch and take the old gentleman out of the saddle. My grandmother told me this happened almost every week. Horse and master understood each other. Not being able to walk very well, he would hunt from horseback, the horse following the setters and coming to a standstill when one of them was on a point, the old gentleman guiding him entirely by pressure of the knees and voice and having both hands free for his fowling piece. The horse died of old age on the place, as most of our servants. Peace to his ashes!—Forest and Stream.

ARE YOU SATURATED

With Catarrh? \$10,000 Awaits Any One Proving That Blood Wine Will Not Do as Advertised.

Catarrh is a disease of the blood. Even if it only shows itself in the shape of nasal or head catarrh, still it is most likely all over you. It may attack you somewhere else—in the stomach, bowels, bladder, or kidneys. It may work down into your lungs—then you will have consumption. If it appears as an ear disease, you'll be deaf. Suppose your very brain is attacked and you have softening of the brain, or meningitis (both are fatal). This probability is always present until you cleanse your blood of the foul catarrhal poison.

Read our letter from Mrs. Annie Kreechhulb of 424 F Street, Louisville: "For fifteen years I suffered with catarrh, which led to a stomach trouble. I grew worse and worse, and could hardly walk across the room. As I had taken all kinds of medicines with no results I had almost given up hope. When 'Blood Wine' commenced to advertise in Louisville I sent for a sample bottle, and later purchased three more. I have now finished my third bottle, and can truthfully say that my catarrh has wholly left me, and I can walk around without getting tired. My strength is returning and I feel like a new person. I will say to all sufferers with catarrh that 'Blood Wine' is the medicine to take if they want to be cured."

Catarrh is the same in you as in any one else, and amenable to the same treatment. Blood Wine cures catarrh wherever it exists, and it will cure you.

JAPANESE WIN AGAIN

In Second Engagement They Gain a Decisive Victory.

RUSSIAN FLEET IS ICEBOUND

Fighting Strength of Island Kingdom Has Astounded Military and Naval Experts—Cruiser Variag Was An American Built Boat.

London, Feb. 11.—Early and unofficial reports of the operations of the Japanese navy against Russia show that in the first 48 hours of warfare Japan has not only dealt a crushing blow to her powerful enemy, but has deprived her of 10 of her best battle-ships and four cruisers, put out of service or destroyed entirely by sudden attack.

The unfolding of the naval program of the Japanese has amazed military and naval experts and shows that the island kingdom has carefully developed its program and is working on a concerted policy.

Until the extent of the damage inflicted by Japan's sudden and daring torpedo boat attack is fully known it will not be possible to estimate how much of the Russian effective force in the Orient has been put out of commission.

In view, however, of the rumored fact that a goodly portion of the Russian fleet is icebound in the Vladivostok harbor, the ripping of the fleet at Port Arthur and the capture of vessels stationed at Chemulpo is of immense importance and indicates that at least until weather conditions improve Russia must act on the defensive.

Baron Hayashi, the Japanese minister here, has received official confirmation from Tokyo of the destruction at Chemulpo of the Russian first-class cruiser Variag and the third-class cruiser Korietz.

Variag Built in America.

The cruiser Variag, which was built at Cramps' shipyard, Philadelphia, in 1893, was of steel and sheathed. She was of 6,500 tons displacement and her indicated horsepower was 20,000. On her speed trials she made 24 knots per hour for eight hours. She was 400 feet long, 52 feet in beam and had a depth of hold of 20 feet. The Variag's armament consisted of 12 six-inch quick-firing guns, 12 12-pounder quick-firers, eight three-pounder quick-firers, two one-pounders and six torpedo tubes, two of which were submerged.

The Korietz was built in Stockholm. She was of steel and was 200 feet in length, 35 feet in beam, 1,413 tons displacement and 1,500 indicated horsepower. Her speed was 13 knots. The armament of the Korietz consisted of two eight-inch breech loaders, one six-inch breech loader, four 4.7-inch quick-firers, two six-pounder quick-firers, four one-pounder revolving cannon and two torpedo tubes.

A special dispatch from Tokyo says it is reported that three transports of the Russian volunteer fleet, conveying about 2,000 troops, have been captured by the Japanese off the Korean coast.

Vladivostok, Feb. 11.—Private telegrams received here report the complete rout of the Japanese by the Russians in the Yalu river. These dispatches also claim that Chemulpo, Korea, has been occupied by Russian soldiers and marines.

Announcement is made of the arrival of Japanese troops at Seoul, but beyond this the dispatches published in the newspapers here this morning add practically nothing to the knowledge of the actual situation.

The Tien Tsin correspondent of the Standard sends in a report that the Russians have massacred 100 Chinese at Liao Yang, in consequence of which the officials at Shan-Hai-Kwan are greatly alarmed and are appealing to Peking for protection.

French Troops Ordered to Seoul.

Other dispatches from Tien Tsin say that 400 French troops have been ordered from there to Seoul for the protection of the French legation at the Korean capital, the emperor having taken refuge there. These reports lack confirmation.

A dispatch to Reuters Telegram company from St. Petersburg says that M. Kurino, the retiring Japanese minister to Russia, and his staff have left there for Berlin. There was a large crowd of people at the station platform when the party boarded the train. Police and gendarmes kept a space clear for the travelers and there was no hostile demonstration.

Continuing, the correspondent says an imperial ukase has been issued which authorizes Viceroy Alexieff to mobilize the reserves within his viceroyalty.

M. Kurino walked slowly to the train, holding in his hand a bouquet of roses which had been presented to M. Kurino by Mrs. McCormick, wife of the United States ambassador.

As the train drew out of the station there were a few cheers and cries of "Long live Nicholas."

San Francisco, Feb. 11.—A cable-

gram to the Associated Press from Nagasaki states that the Russian cruiser Variag, which was reported to have been sunk at Chemulpo by the Japanese fleet, was captured and arrived at Sasebo. The dispatch also states that in addition to the Russian vessels damaged in the torpedo attack at Port Arthur that seven other vessels were captured. It is also reported at Nagasaki that General Kuropatkin has arrived at Harbin to take command of the Russian land forces.

St. Petersburg, Feb. 11.—Viceroy Alexieff has begun the mobilization of the army reserves in Eastern Asia. The publication of extra editions of the newspapers containing accounts of the reported injuries to Japanese ships during the Port Arthur engagements and the sinking of the Japanese battleship Shikishima led to a demand upon the editors for the source of their information. They replied: "It came from the British embassy."

These reports were received everywhere with manifestations of joy, but nothing confirming them has come from Viceroy Alexieff.

Tokio, Feb. 11.—The Japanese have captured at least five Russian commercial steamers, including the Ekaterintslav, Moukden, Russia, Argun and Alexander. They were captured by the Japanese in Korean and adjacent waters at various times since Saturday by small cruisers. Some of the steamers were rich prizes. The small steamer Koeik is detained at Yokohama, its status not being clear.

Japan seized Masampo Sunday and dispatched a heavy force there. Japan will fortify the port and establish a naval and military base there. Masampo is an exceedingly important point, as it controls the Korean channel and is an excellent base for future operations.

Real Issues of War.

Princeton, N. J., Feb. 11.—Rev. Dr. A. Judson Brown of New York, who recently returned from Japan, delivered an address before the theological seminary students on "The Real Issues of the War Between Russia and Japan," in which he said that Russia, through gross deception, had gained a strong footing at Port Arthur and that the czar was determined to gain control of Korea, which would afford his fleet free movement in eastern waters, and that Japan, having been placed at a disadvantage in the war with China by Russia's appeal to European powers to preserve China's interests, hates the Russians, and also, having world power aspirations, sees that their realization lies in her ability to keep Russia from gaining control of Korea.

Supplies for Japan.

San Francisco, Feb. 11.—The steamship Gaelic sailed for the Orient with 1,100 tons of flour for Japan, 1,200 bales of cotton, 400 tons of lead and five tons of shoe nails for use in the manufacture of footwear for the Japanese army. Among the passengers was John Fowler, United States consul at Chefoo, who has been home on leave of absence. In the steerage were about 40 Japanese who intend to enlist in their country's army.

Flag Up for Japanese.

Youngstown, O., Feb. 11.—The first Japanese flag thrown to the breeze in Ohio in honor of the sinking of three Russian battleships was put out at the residence of Dr. J. B. Grossman, pastor of the Rodef Sholem Temple, who predicts defeat for Russia.

STARCH FACTORY ABLAZE.

Largest Establishment of Its Kind in Danger of Total Destruction.

Oswego, N. Y., Feb. 11.—The huge starch factory of the Corn Products company, the largest establishment of the kind in the world, is threatened with destruction by a fire which started in the chemical room. One of the buildings has been destroyed and the second building was ablaze and the fire entirely beyond control. It is feared that the flames will spread to the Columbia flouring mills and Kingsford's office and malt house. After the city fire department and the volunteer department of Kingsford's mills had tried in vain to cope with the flames, Mayor Mansfield telegraphed for aid to Fulton and Syracuse. From the latter city three engines and 25 men were dispatched and joined their efforts to those of the local department. Two firemen were badly injured.

Twenty-five men at work in the buildings where the fire started barely escaped. The burning buildings contain many hundreds of thousands of bushels of starch and corn. It is believed the loss will reach a million dollars. Six hundred employees are thrown out of work.

CHINAMAN MURDERS WIFE.

Formerly a Mission Worker of Pittsburgh.

Chicago, Feb. 11.—Two days ago the police arrested Lee Chang, a Chinaman, on a charge of murdering his wife, who was an American woman named Lillian Russell. She is said to have been a slum worker for a Baptist missionary school in Pittsburgh. It is said that she met Chang in the Chinatown of Pittsburgh. She attempted to convert him to Christianity, and later married him. A short time after the marriage they came to Chicago.

It is claimed by the police that Chang killed the woman by strangling her with a quilt, taken from the bed upon which she was sleeping.

Hanna Slightly Improved.

Washington, Feb. 11.—Senator Hanna is resting comfortably and his condition shows some improvement. Dr. Osler of Baltimore was present at the consultation held by the other physicians.

JAMES M'DONALD ARRESTED.

Is Accused of the Murder of Bedford School Teacher.

Bedford, Ind., Feb. 11.—Detectives Reed and Smith of the Pinkerton detective agency, after a hard-fought battle with false clues and mystery, arrested a man charged with the murder of Miss Schaefer, the Bedford school teacher who was so brutally slain here nearly three weeks ago. The man gave the name of James McDonald. Later he made the following statement to the officers of the reformatory at Jeffersonville, where he is confined:

"My right name is William Parsons, although I am known by the name of James McDonald. So far as the crime with which I am charged is concerned I am as innocent as a man could be."

I got into this through my own foolishness. I made false statements before the court of inquiry. I can't explain why I did it, but I suppose it was because I wanted to make people think I knew something about the murder. I know absolutely nothing about the crime. The nearest I was to the place where Miss Schaefer was murdered was over half a block away at the doctor's office. I did not see her that night, never did see her, and did not know there was such a woman living."

PANIC NARROWLY AVERTED.

Battery Blows Out and Causes Alarm in New York Theater.

New York, Feb. 11.—There was much confusion and some alarm in the dress circle of the Metropolitan opera house last night when, during the second act of "Lucia," a sheet of flame and a cloud of smoke burst from an electric bell at one side of the main entrance to the circle.

Mme. Sembrich and M. Campanari were on the stage at the time and both looked startled, as they clearly could see the smoke. The members of the orchestra saw it, too, and there was an instant's pause. Several women rose from their seats and started to enter the aisles. In an instant ushers crowded down the aisles, assuring everybody that there was not the slightest danger and soon restored confidence. An usher said that a "battery" had blown out.

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

No Life, No Energy, No Ambition

There are common expressions now-a-days and the finer points that point with infallible accuracy to the nervous system robbed of its vitality by overwork, worry or excesses of some kind.

That any one should allow this condition to go on to complete mental, physical or sexual ruin, is a crime as it is a neglect.

A person suffering from a nerve is at hand in **BAR-BEN**, a medicine designed expressly for this condition, restoring the kidneys, and purifying and enriching the blood, thus building up the very essentials of life—Nerve Force. It relieves the nervous, irritable, weak and exhausted feelings will disappear. Your sleep will be natural, sweet and restful. You will wake morning feeling strong and vigorous as of old. All gloomy depression and sense of weariness will fade from your mind; your nerves will become strong and steady as steel; your ambition will be restored and you will look and strength will take the place of weakness. The testimony of thousands of men and women who have used this great remedy more effectively than any other remedy.

Use Bar-Ben for free sample. All druggists or mail order.

The Happiest Home Is Your Own Home

It is impossible to feel perfectly at home in the house of another. The only perfect "home feeling" comes to those who own the place where they live.

We'll help to give you the real home feeling. The plan is simple. The cost reasonable. We'll arrange it to your liking. You needn't put much in at a time, but just a convenient bit each day will surprise and delight you with its increasing capacity.

Why pay rent when you can't afford it? No man can afford to pay rent, but every man can afford to apply his rent money on the purchase of a home.

Real estate is looking up. Its value to heed the signs of the times and buy now. A wise investment will yield a nice profit if prices continue to advance, or would be a safe place for your savings even if prices should stay where they are.

- See what we offer you:

MRS. LAURA DOBBS WANTS A DIVORCE

ALLEGES HER HUSBAND HAS DESERTED HER FOR ANOTHER.

Claims She Will Lose Her Home Through His Failure to Support Herself And Children.

Lisbon, February 11.—(Special).—Laura Dobbs, through her attorneys, F. E. and H. E. Grosshans, of East Liverpool, has filed suit for divorce and alimony from Samuel Dobbs. An order of the court provides for temporary alimony of \$25 down and \$25 a month during the pendency of the suit and enjoins the defendant from disposing of any of his property.

The parties were married on Christmas day, 1884, and have three children, Bastia, Samuel and Victor Dobbs. Mrs. Dobbs says that she and her husband lived together happily until July, 1902, when he commenced to frequent the homes of Eli Downard and John Allison, where he became and continues to be infatuated with Mary Allison, wife of John Allison and the daughter of Downard. Shortly after, it is alleged, Dobbs left his wife, and Mrs. Allison left her husband, since which time they have been intimate companions and when separated have kept up a correspondence.

Mrs. Dobbs says her husband is about 40 years old and as a skilled pottery worker is capable of earning about \$25 a week. Since her husband's desertion she has received no support from him, except \$8 a month which she collected as rent from a property owned by him in Liverpool township, but in June last he notified her that she should no longer collect the rent and that he would give her no money whatever. On November 7, 1899, she alleges, her husband borrowed \$100 from her and she mortgaged real estate she owned in St. Clair township. The defendant, she says, has wholly failed to pay her any of this sum or the interest due. Mrs. Dobbs says that on November 8, 1902, she bought a home in East Liverpool for \$3,200, on which she has paid \$1,050, inherited from her father's estate. She says there is still unpaid a debt of \$1,800 and that she will lose her home through inability to pay what is yet due.

Her husband owns one acre in East Liverpool, of which the court has enjoined him from making any disposition.

TO SAVE HIS LIFE HIS LEG IS CUT OFF

Young Colored Man Undergoes a Serious Operation as Result of Fever.

Drs. Andrews, Elliott and Marshall, of this city, and Dr. Price, the relief doctor of Wellsville, yesterday afternoon performed an operation amputating the left leg of John W. Vinson at a point close to the thigh. The operation was performed at the home of Mr. and Mrs. Ernest Foster, 360 Fourth street, where the young man has been boarding.

Vinson is a colored young man about 25 years of age, and came to this city three years ago from Atlanta, Ga. He was for some time employed as coachman by E. M. Knowles, but about a year ago secured employment in the car repair shops at Wellsville. He was taken ill with typhoid fever in December and has since been confined to his boarding house in this city. The disease settled in the leg and the artery rotted off, rendering amputation necessary to save his life.

Interesting Sermons.

The special meetings at the First Baptist church are making excellent progress. Several have united with the church and three are to be baptized soon. Rev. E. A. Read preached an interesting sermon last evening and the interest continues good. He will preach again this evening.

Notice of Meeting.

ACTION WANTED FOR PROHIBITION

REV. J. W. GORRELL TO WORK FOR WARD LOCAL OPTION.

Ministerial Association Desirous of an Early Decision on Liquor Question Here.

At a meeting of the Ministerial association held this morning, Rev. J. W. Gorrell, pastor of the First Christian church, who is president of the association, was appointed to carry resolutions of support to Representatives Hill and Crist with regard to ward local option. Rev. Mr. Gorrell left for Columbus on the mission assigned him and will remain in Columbus several days lobbying and working in the interest of the bill.

The local ministers hold that if the bill becomes a law at least three of the wards of the city will be freed from saloons. Some of the ministers believe that an election should be held at once under the local law. It is said there is a general sentiment in favor of quick action, and the ministerial association will soon hold a meeting for a discussion of operating plans.

WARRANT ISSUED FOR BOYS' ARREST

Two Lads Accused of Breaking Into a Gardendale Residence And Stealing.

John Cook, of Gardendale, appeared before Mayor Weaver this morning and had warrants issued for the arrest of John and Frank Franklin, charging them with forcing an entrance into his house yesterday afternoon and robbing it of articles valued at \$3. Officer Dawson left this afternoon to make the arrests.

Cook alleges that the boys have broken into his residence before and upon numerous occasions stolen things from him.

SALTSMAN CHILD WAS KIDNAPED

Another Sensation in the Sensational Case Develops at Salineville.

Salineville, February 11.—(Special).—Another chapter in the Saltsman kidnapping case occurred yesterday, when the Saltsman residence south of town was forcibly entered by a stranger, who seized the three-year-old son of the family and ran away with him.

It is said that the stranger was accompanied by Mrs. Saltsman. The child had been left in the care of its grandmother by the father.

SOCIAL EVENTS

Hospital Benefit Sale.

The members of the Willing Workers' society of St. John's Evangelical Lutheran church are making arrangements for the holding of a public food sale on Saturday afternoon and evening, the proceeds of which will be turned over to the hospital fund. The ladies of the society will furnish the goods which will be placed on sale at the residence of Mrs. W. S. Dailey, Sixth and Jackson streets. The sales room will be in the store room, second from the corner on Jackson street, which will be open all of Saturday afternoon and evening.

Belmont Domino Party.

One of the most prominent social events of this evening will be the Belmont Domino party which will be given by the Belmont club at its rooms on Market street. The club members and their lady friends will wear domino costumes, the young ladies in red and the young men in black dominos, bringing into effect the club colors. The dance will be followed by another given by the club on February 22 at Rock Springs park.

Willing Workers.

Mrs. Fred Wagner, of West Fourth street, entertained about forty members of the Willing Workers society of St. John's Evangelical Lutheran church last night, the occasion being Mrs. Wagner's birthday. After the business a tempting luncheon was served. A number of pleasing musical selections were rendered.

Entertained Her Friends.

Miss Nellie McNamee pleasantly entertained at her home on Prospect street last evening. Flinch and pit were the games played while other delightful features were music and refreshments.

Social to Be Arranged.

The Christian Endeavor social committee of the First Presbyterian church will meet next Tuesday evening in the church for the purpose of making arrangements for another social. These entertainments are always enjoyable.

Under a Circus Tent.

The Sunday school children of St. Stephen's church were afforded a good entertainment by Rev. Edwin Weary who gave a stereopticon lecture last evening on "Life Under a Circus Tent." The attendance was very good.

Mission Workers.

The Missionary society of St. Stephen's church will meet next Wednesday afternoon and work of interest to the society members is arranged.

POKER GAME SPOILED

Five Players And the Proprietors of the Resort Placed Under Arrest.

Chief Wyman and Officer Dawson entered the room above the bar of Cal Bowers, on Franklin street, last evening and discovered a game of poker in progress. Neither of the officers was in uniform and several of the players did not know them. One man from Steubenville even went so far as to put in his ante for the next pot before he realized that he was under arrest.

Five players were in the game and they were all placed under arrest, together with the proprietor. They all gave security for their appearance before the mayor today. The paraphernalia in the room was not disturbed.

FATE OF POTTERY CO.

Will Be Decided By Union Management at a Meeting on the 18th.

Vice President Fowler, of the Union Pottery company, who is spending several days in the city, stated this afternoon that the fate of the company would be decided at a meeting of the stockholders to be held in the 18th of this month. It will be then decided whether to rebuild the Chelsea plant and continue operation of the Union.

Condition Dangerous.
A. W. King, the hardware dealer, recently injured by a fall down the elevator shaft at his store, is reported in a dangerous condition. His physicians say he cannot recover.

Stupid Man:
Mrs. Ascum—But why didn't you buy the material if you liked it? Mrs. Nurich—The salesman said it was domestic dress goods. Mrs. Ascum—Well? Mrs. Nurich—You don't suppose I'd wear anything meant for domestics, do you?—Philadelphia Press.

A Reminder.
"There," said the tailor; "that suit certainly fits you perfectly."
"Yes, indeed. You may justly feel proud of that," replied the customer. "It's a credit to you."
"Well—er—I hope you won't forget it's a debit to you."—Exchange.

Respect.
"Children don't seem to have as much respect for their parents as formerly."
"No," answered the cynic, "and I have never quite been able to make up my mind whether this is because modern children are less dutiful or more discerning."—Washington Star.

Soothing Syrup.
Vexed Wife—There is no calamity that can befall a woman that I have not suffered! Amiable Husband—Wrong, my dear. Now, you have never been a widow. Vexed Wife—I said calamity, sir!
